That's good, because the more people who know about a good thing, the more expensive that thing ordinarily becomes..." —Andrew Tobias, author of The Only Investment Guide You'll Ever Need "This book is the finest simple distillation of modern value investing principles ever written. It should be mandatory reading for all serious investors from the fourth grade on up." —Professor Bruce Greenwald, director of the Heilbrunn Center for Graham and Dodd Investing, Columbia Business School

The United States is supposed to offer economic opportunity to everyone. It shouldn't take a worldwide pandemic and nationwide protests to bring economic and racial inequality to the forefront of problems we desperately need to solve. But now that the opportunity is here, what should we do? How can we create more equality, opportunity, and growth for everyone? Not someday, but what can government and the private sector do right now to disrupt a status quo that almost everyone wants to change? In Common Sense, the New York Times best-selling author Joel Greenblatt offers an investor's perspective on building an economy that truly works for everyone. With dry wit and engaging storytelling, he makes a lively and provocative case for disruptive new approaches—some drawn from personal experience, some from the outside looking in. How can leading corporations immediately disrupt our education establishment while creating high-paying job opportunities for those currently left behind? If we want a living wage for everyone, how can we afford it while using an existing program to get it done now? If we subsidize banks, what simple changes can we make to the way we capitalize and regulate them to help grow the economy, increase access, and create more jobs (while keeping the risks and benefits where they belong)? Greenblatt also explains how dramatically increasing immigration would be like giving every American a giant bonus and the reason Australia might be the best place to learn about saving for retirement. Not everyone will agree with what Greenblatt has to say—but all of us can benefit from the conversations he aims to start.

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. " Why should I put time into studying subjects I will never use in real life? " he protested. Without thinking, I responded, " Because if you don't get good grades, you won't get into college. " " Regardless of whether I go to college, " he replied, " I'm going to be rich. "

This little Collection of Poems and Songs represents 50 years of the writer's work and "reflective style of living" from age 15 to 65, all but one previously unpublished. The partial product of a small-town childhood and a Midwest education during the post-war 40's, the politically apathetic but musically revolutionary Rock-n-Roll 50's, and the Socially Revolutionary 60's, with influences as diverse as Mother Goose, Ayn Rand, Buddy Holly, Robert Heinlein, A. A. Milne, Woody Guthrie, Robert Frost, Thoreau, Poe, Bob Dylan, Lewis Carroll, and Walt Kelly's 'POGO', among others, known or not, this work covers a wide range of styles from "doggerel" to blank verse to lullabies, and a range of subjects and ideas from observations of nature and people to love-poems, homages, satirical parodies, and meditations on life and death and beyond. Herein you may find silliness and satire, grief and grievances, political commentary, or retrospectives of crossed paths with girls, animals, lakes and mountains, presidents, children, friends and strangers, even ants--not all of them, perhaps, what they first seem to appear, but all special and memorable enough to stand out, or as they do here, stand alone. By the author's own admission, "Certainly there have been ideas, moments, even people missed or forgotten along the way and no doubt much remains to be noted and commented on, but the places I go and the people I 'meet' just continue to 'sing' to me. Many "grab" me immediately, while some "sneak up on me" and surprise me later." Will Rogers was famous for saying, "I never met a man I didn't like!" For Paul, the "operative word" there is "MET": that is: "Discovered"--or came to know and understand--or "saw through" to the "Song" within. "That", he says, "Is how people "sing" to Me--every time I stop to listen--and to Care--as if each were truly unique and each one genuinely mattered!" Meanwhile, "the beat goes on" and the Music never stops. And so, He says, " I'll just keep listening and learning, and sharing --- and trying to "keep in tune" --- perhaps the best is yet to come! ---- One can Always Hope ! "

"At last--a global plan that actually adds up."--James Hansen, former director, NASA Goddard Institute for Space Studies The world must reach negative greenhouse gas emissions by 2050 to avoid the most catastrophic effects of climate change. Yet no single plan has addressed the full scope of the problem--until now. In The 100% Solution, Solomon Goldstein-Rose--a leading millennial climate activist and a former Massachusetts state representative--makes clear what needs to happen to hit the 2050 target: the manufacturing booms we must spur, the moonshot projects we must fund, the amount of CO2 we'll have to sequester from the atmosphere, and much more. Most importantly, he shows us the more prosperous and equitable world we can build by uniting the efforts of activists, industries, governments, scientists, and voters to get the job done. This is the guide we've been waiting for. As calls for a WWII-scale mobilization intensify--especially among youth activists--this fully illustrated, action-oriented book arms us with specific demands, sets the stakes for what our leaders must achieve, and proves that with this level of comprehensive thinking we can still take back our future.
