The Maxima was redesigned on October 24, 1988 for the 1989 model year as the J30 series (not to be confused with the unrelated Infiniti J30) model. Larger dimensions made it the second Japanese sedan sold in North America to qualify as a "mid-size" (after the Mazda 929). Nissan marketed this generation Maxima in North America a four-door sports ...

Knowledge updating is a never-ending process and so should be the revision of an effective textbook. The book originally written fifty years ago has, during the intervening period, been revised and reprinted several times. The authors have, however, been thinking, for the last few years that the book needed not only a thorough revision but rather a substantial rewriting. They now take great pleasure in presenting to the readers the twelfth, thoroughly revised and enlarged, Golden Jubilee edition of the book. The subject-matter in the entire book has been re-written in the light of numerous criticisms and suggestions received from the users of the earlier editions in India and abroad. The basis of this revision has been the emergence of new literature on the subject, the constructive feedback from students and teaching fraternity, as well as those changes that have been made in the syllabi and/or the pattern of examination papers of numerous universities.
