Coaching is vital to developing talent in organizations, and it is an essential capability of effective leaders. The CCL Handbook of Coaching is based on a philosophy of leadership development that the Center for Creative Leadership has honed over thirty years with rigorous research and with long, rich experience in the practice of leadership coaching. The book uses a coaching framework to give a compass to leaders who are called to coach as a means of building sustainability and boosting performance in their organizations. The book explores the special considerations that leader coaches need to account for when coaching across differences and in special circumstances, describes advanced coaching techniques, and examines the systemic issues that arise when coaching moves from a one-to-one relationship to a developmental culture that embraces entire organizations.

This volume delves into the study of the world's emerging middle class. With essays on Europe, the United States, Africa, Latin America, and Asia, the book studies recent trends and developments in middle class evolution at the global, regional, national, and local levels. It reconsiders the conceptualization of the middle class, with a focus on the diversity of middle class formation in different regions and zones of world society. It also explores middle class lifestyles and everyday experiences, including experiences of social mobility, feelings of insecurity and anxiety, and even middle class engagement with social activism. Drawing on extensive fieldwork and in-depth interviews, the book provides a sophisticated analysis of this new and rapidly expanding socioeconomic group and puts forth some provocative ideas for intellectual and policy debates. It will be of importance to students and researchers of sociology, economics, development studies, political
