The European Society of MusculoSkeletal Radiology is an educational, scientific Society concerned with advancement of the art and science of musculoskeletal radiology. To promote this mission, the ESSR has issued technical standards for ultrasound examination of joints, including the shoulder, the elbow, the wrist, the hip, the knee and the ankle. These US guidelines were first published in 2010.

Musculoskeletal (MSK) ultrasound performed by non-medical practitioners is a developing practice. The aim of this paper is: (1) to audit an experienced sonographer's (SJR) performance after one year's independent reporting against two experienced MSK radiologists (CJG, MC); and (2) to establish an audit standard against which such role development might be contrived.
