In his bestselling book Emergence, Derek Rydall helps you throw aside the self-help books and recognize one simple, radical truth: the answer is already in you. The harder we try to change, the deeper in the hole we get. We find a new partner but have the same old fights. We strive for an ever-bigger paycheck but end up broke at a higher income bracket. This is what happens when the basic principle of life—the Law of Emergence—is disrupted, stopping you from knowing that you are the perfect you. Like an acorn is a perfect acorn that becomes a perfect oak tree, there is not a part of you from beginning to end that isn't exactly what you should be. The Law of Emergence provides the foundation to re-engage with this ancient principle. In this seven-stage framework, spiritual life coach Derek Rydall shows that we aren ' t lacking anything; everything we need to fulfill our full potential is already inside us. Backed by an ancient truth that has largely been lost, Rydall changes the conversation around how to achieve your potential by showing you how to activate the genius already in you and empower your purpose in life. If you are struggling to improve something about yourself—your health, your mindset, your relationships, then Emergence is the book and Derek is the teacher you have been waiting for.

More and more sailors and powerboaters are buying and relying on electronic and electric devices aboard their boats, but few are aware of proper installation procedures or how to safely troubleshoot these devices if they go on the blink.

Control of Emissions from Marine SI and Small SI Engines

The long-awaited story of the marine industry's most celebrated personality, Carl Kiekhaefer, the industrial Caesar of the Mercury marine industry empire. "His obsession with success, and his legendary style made him the most extraordinary entrepreneur in the history of the industry."--Jack Reichert, Chairman, Brunswick Corporation.

We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Living with a tigress is no joke! This is the true story of a Forest Conservator who risked his life and went beyond the call of duty for Khairi, a tigress he considered as his very own. The book offers the perfect balance of a biography and a scientific study. Khairi is so brilliantly brought to life in this book that you almost expect to hear her padding up behind your chair, purring loudly.
