Perfect for children ages 11 and 12, this workbook extends the geography knowledge and map-reading skills of sixth graders and contains curriculum-aligned objectives that include using different map projections and informational maps, locating the world's major physical features, and reinforcing knowledge about the United States, the continents, and specific world regions. Level by level, the write-in DK Workbooks: Geography series offers at-home practice that kids actually enjoy--making them ideal supplements to schoolwork. Designed to support curriculum standards, this series is developed with leading educational experts to build confidence and understanding. Each leveled workbook, for children ages 3-9, is packed with activities and challenges, offering the beneficial repetition and cumulative learning that lead to mastery. Fact boxes on each page give a simple overview of the topics being covered, review the basics, and often offer an example of the task at hand. The exercises themselves reinforce key geography topics including map reading, compass directions, continents, countries and states, borders, bodies of water, and more.

Provide your students with frequent, focused skills practice with this Reproducible Teacher's Edition. The reproducible format and additional teacher resources give you everything you need to help students master and retain basic skills.

The National Geographic Bee is a local, state, and national academic contest for students in grades four through eight. The competition culminates in a finals face-off, broadcast live on National Geographic Television. This is the ultimate guide for gearing up for the events. Like the Bee, the guide has expanded its range of material to include social studies, earth and space science, the environment, and culture. Of course, geography is at its core, and the guide features the latest country and geographic statistics; selected new question rounds; updated resources; new tips from past winners; and a brand new country index full of vital stats. It's the perfect resource to help millions of school kids prepare to compete in the Bee. It's also a fun and helpful resource for trivia buffs, challenge seekers, and college-bound test-takers.

Presents a complete conceptual framework with hands-on ideas for successful middle and secondary geography instruction. CD contains extended activities, geography standards, and more.

The fourth edition of the Study Guide for Practical Statistics for Educators serves as a user-friendly and accessible way for students to better understand the concepts introduced in its companion

textbook, Practical Statistics for Educators. With clear and straightforward exercises, the workbook allows students to reinforce their knowledge of statistics. Most importantly, students are given the answers and an explanation for why the correct answer is the better than the other choices. New in this edition are accompanying Excel exercises.
