This book, written in three parts, introduces the reader to the basics of the international trade and elaborates on bills of lading and charterparties in depth. While the book is based on the English law, cases and materials from other jurisdictions, particularly Singapore, Malaysia, India, the USA, and Australia are brought in to provide an international perspective. The practical analyses, commentary and critiques of cases would be a useful guide for practitioners in developing case arguments. Although written with practitioners, academicians and students in mind, the book will also serve as a useful guide for sea carriers, freight forwarders, international traders, financiers, etc. as the complex subject is presented in reader-friendly and easy to grasp manner. Arun Kasi is a law-practitioner and

arbitrator, specialising in maritime law. While being an active practitioner, he has always been highly academically inclined. He graduated with his law degree when he was 19 years old and has been working in the field since then. To date, over a span of 30 years, he has authored or co-authored six law books and about 40 articles.

"Carriage of Goods by Sea is the definitive textbook on this important area of international trade law and is suitable for both undergraduate and postgraduate students. Written by an expert in the field, it provides an authoritative, in-depth and critical survey of all aspects of the law relating to carriage of goods by sea. The book successfully combines a clear analysis of legal principles with sound practical considerations, allowing for a more complete treatment of the subject."--BOOK JACKET.

Asian American women have long dealt with charges of betrayal within and beyond their communities. Images of their "disloyalty" pervade American culture, from the daughter who is branded a traitor to family for adopting American ways, to the war bride who immigrates in defiance of her countrymen, to a figure such as Yoko Ono, accused of breaking up the Beatles with her "seduction" of John Lennon. Leslie Bow here explores how representations of females transgressing the social order play out in literature by Asian American women. Questions of ethnic belonging, sexuality, identification, and political allegiance are among the issues raised by such writers as Jeanne Wakatsuki Houston, Bharati Mukherjee, Jade Snow Wong, Amy Tan, Sky Lee, Le Ly Hayslip, Wendy Law-Yone, Fiona Cheong, and Nellie Wong. Beginning with the notion that feminist and Asian

American identity are mutually exclusive, Bow analyzes how women serve as boundary markers between ethnic or national collectives in order to reveal the male-based nature of social cohesion. In exploring the relationship between femininity and citizenship, liberal feminism and American racial discourse, and women's domestic abuse and human rights, the author suggests that Asian American women not only mediate sexuality's construction as a determiner of loyalty but also manipulate that construction as a tool of political persuasion in their writing. The language of betrayal, she argues, offers a potent rhetorical means of signaling how belonging is policed by individuals and by the state. Bow's bold analysis exposes the stakes behind maintaining ethnic, feminist, and national alliances, particularly for women who claim multiple loyalties.

Most countries around the globe have one or two levels of regional or intermediate government, yet we have little systematic idea of how much authority they wield, or how this has changed over time. This book measures and explains the formal authority of intermediate or regional government in 42 advanced democracies, including the 27 EU member states. It tracks regional authority on an annual basis from 1950 to 2006. The measure reveals wide variation both cross-sectionally and over time. The authors examine four influences – functional pressures, democratization, European integration, and identity – to explain regionalization over the past half-

You will laugh and cry as you read this 50+ year snapshot of time in Deb Sue ' s life where she shares the joys and sorrows from her youth through adulthood of working with animals. Each experience, from the innocent and inexperienced costly mistakes of youth to the special joys and lessons of adulthood, yielded spiritual dividends that formed who she is today. Nana ' s Animals is a collection of short stories of a rural American farm girl ' s life-long experience with animals. Many of the stories were rescues and the rest, were animal experiences from farm life through adulthood, and the invaluable faith-building

Lost in her ever-changing forms, 'Water' questions who she is after an encounter with a creature in an underground cave. Water seeks all parts of her cycle for answers, which makes her feel overwhelmed and confused. However, an 'old tree' helps her to understand her place in the world and her many interconnections with all living and non-living things. From the unique perspective of Water, the story explores the water cycle drawing out the many interconnections Water has with all living and non-living things.
