1 Why is it called "Linear Algebra"?

# Read Book A Linear Algebra Primer For

Linear algebra is the study of linear functions/equations. A linear equation is one in which each term is either a constant or the product of a constant and the first power of a single variable. A linear function is one which obeys the two properties  $f(x) + f(y) = f(x + y)$  and  $f(-x) = -f(x)$ .
