A Picture's Worth: PECS and Other Visual Communication Strategies in Autism. A Picture's Worth: PECS and Other Visual Communication Strategies in Autism by Andy Bondy and Lori Frost Bethesda, MD, Woodbine House, 2002, 155 pp, \$16.95 (softcover). Picture Exchange Communication System (PECS) is an augmentative communication system developed in the early 1990s by Andy Bondy and Lori Frost, which has been used extensively in treating children with autism and other communication problems.

~~A Picture's Worth: PECS and Other Visual Communication...~~

A Picture's Worth examines verbal communication development and how autism affects these skills, and shows how a child's poor communication skills can lead to problem behaviors. Providing communication options—PECS and the other augmentative and alternative communication strategies (AAC)—described in the book, reduces frustration and enhances learning.
