Postdoctoral Research Fellow, Trinity College, School of Mathematics, Dublin, Ireland ... Keating, "Methods for Stabilizing High Reynolds Number Lattice Boltzmann Simulations," Advisor: George Vahala, ...

Recent Ph.D. Recipients

In addition to investigating the detector response to single particles, we are actively working on a number of physics channels to investigate how the end performance on important observables may be ...

DETECTOR DEVELOPMENT FOR SUPERB

Listings are sorted in descending order by number of domains registered to each registrant. When some or all of a registrant's domains list addresses outside the United States for all contacts, such ...

20-29 domains per registrant
using the off-axis near detector of the Tokai to Kamioka experiment" "Leptogenesis constraints on low-energy neutrino parameters, and a measurement of the charged current zero pion electron neutrino ...

PPRC Ph.D. Theses (since 1990)
As the photogrammetric accuracy is expected to exceed the geodetic network accuracy by at least one order of magnitude, we suggest to do a fine registration based on a number of signalized points.

Conference Contributions

The only thing that is uncertain might be the position and number of the vents as the Booster will have 33 engines to thermally condition in comparison to Ship's three sea-level optimized Raptors.
