This book is indeed a "short" history of Financial Euphoria. I would have liked a much longer and more detailed history by Mr. Galbraith. In a previous book, "The Great Crash 1929," much of what is in this book has already been expressed. In fact, I think most of this work was excerpted directly from the "The Great Crash" verbatim.

My new book Don't Fall For It: A Short History of Financial Scams is now out in both hardcover and digital format.. This was a fun project for me because it was something completely different than the first two books I wrote. I'm a glutton for punishment so towards the end of 2017 I started getting the itch to write another book.

The birth of financial accounting as a respected profession can be traced to the Italians during the Renaissance. Italian merchants during this time developed extensive trading routes across Europe, as well as regional banking centers, where funds and goods were carefully tracked using the first system of double-entry bookkeeping.

About the History of Financial Accounting | Bizfluent

The first documented effort of the short selling of securities in financial history dates to 1609, when Isaac Le Maire, a sizeable shareholder of the VOC, initiated the first recorded bear raid, selling shares of the Company short to buy them back at a profit.
