After this, you can add your color or strobe effects. Or both. For the flashing effect, navigate to Effects > Stylize > Strobe Light and adjust the Strobe Duration and Strobe Period accordingly. To change colors in your strobe, set a Key Frame for Strobe Color, then change the colors as you see fit.

Chapter 1. After Effects Essentials for the Flash User After Effects is a powerful animation software program that offers many tools for creative effects, dynamic animation, and excellent compositing. Although After Effects and Flash now share the same manufacturer, they evolved as very different programs.

Flash creates primarily vector-based animation and is highly suited to production of interactive material, like highly animated websites (although it's lost a lot of traction in this area) and games. After Effects creates primarily raster-based (made from pixels) animated content, and so it is highly suited to film and visual effects compositing.

Will Adobe provide security updates for Flash Player after the end-of-life date? Adobe will not issue Flash Player updates or security patches after the EOL Date. We recommend that all users uninstall Flash Player before the EOL date (see manual uninstall instructions for Windows and Mac users). As of mid-October 2020, users started being prompted by Adobe to uninstall Flash Player on their machines since Flash-based content will be blocked from running in Adobe Flash Player after the EOL Date.

*Adobe Flash Player End of Life*

After Effects. The main type of animation where After Effects excels is motion graphics / info-graphics. You'll see this style frequently in commercials and explainer videos online. This type of animation focuses on strong 2D design and leverages After Effects unparalleled compositing features to animate slick transitions between scenes.
