information. It is published every week, usually on Friday, with occasional releases of special or supplementary editions within the week.

The encyclopedia of weapons of world war II is the most detailed and authoritative compendium of the weapons of mankind's greatest conflict ever published. It is a must for the military, enthusiast, and all those interested in World War II.

This book, the last in a four-part series on British Battle Tanks covering the whole history of British armoured warfare, concentrates on those vehicles that have served following the end of World War II up to the present day. Starting with the Centurion, the title explores those types that equipped the armoured divisions lined up on the German plains to resist any potential Soviet offensive, as well as in Korea and Suez, including the Chieftain and Conqueror, and modern tanks such as the Challenger 2 which are still in service today. Covering the many variants of

these and other tanks in British service as well as their deployments around the world, including in Afghanistan and Iraq, this illustrated volume is a comprehensive guide to the development of British tanks since the Second World War.

This book chronicles the fascinating first 80 years of DAF's history, from being a small Dutch trailer manufacturer through to its acquisition by US truck giant Paccar, and the development of the company to its present position as the top-selling truck in the UK and a major global brand. Buses, cars and army trucks are also covered, as well as details of how DAF has worked with various other truck makers, such as Leyland, International Harvester, Renault, RABA and GINAF, making the book essential reading for truck enthusiasts everywhere.
