The Biopac Student Lab Basic system is an integrated solution that allows students to record data from their own bodies, animals, or tissue preparations. Easy to use yet powerful enough for advanced research applications, the Biopac Student Lab revolutionizes how students learn by eliminating complex setup tasks and letting them focus on learning the subject.

Basic | BIOPAC

The Biopac Student Lab is a proprietary teaching device and method introduced in 1995 as a digital replacement for aging chart recorders and oscilloscopes that were widely used in undergraduate teaching laboratories prior to that time. It is manufactured by BIOPAC Systems, Inc., of Goleta, California. The advent of low cost personal computers meant that older analog technologies could be replaced with powerful and less expensive computerized alternatives. Students in undergraduate teaching labs
