Bougainvillea / RHS Gardening

Bougainvillea House The largest of the houses, Bougainvillea House features a wrap-around veranda with elevated views overlooking the Story Bridge and city skyline. Its rustic charm will make your event feel like a home away from home.

Venues □ Howard Smith Wharves

Bougainvillea is not your typical houseplant □in its natural state, it's a sprawling climber and shrub with formidable thorns, often found on the exterior of buildings (like climbing up a trellis or over a fence) or in gardens in subtropical-to-tropical climates.

Bougainvillea: Indoor Plant Care & Growing Guide

Bougainvillea is a drought tolerant plant that should be kept on the dry side. Allow the top 50% of the soil to dry out before watering. A bougainvillea may even wilt a little to let you know it needs water. When you do water a bougainvillea plant, water deeply and cover the entire surface of the soil.

With over 350 vibrant photographs, extensive commentary and architectural plans, this architecture and design book showcases the modern luxury homes of Asia. The Sustainable Asian House celebrates modern architecture as an expression of environmental, social and cultural sustainability, as seen in some of the most breathtaking luxury homes in Southeast Asia. Gorgeous residences in Thailand, Malaysia, Singapore, Indonesia and the Philippines beautifully exemplify the trend towards sustainable architecture that engages with the natural world. The 27 houses featured in this fascinating and stunningly photographed architectural digest provide endless inspiration for architects, designers, builders and home buyers. The Sustainable Asian House illuminates the region's reinterpretation of tropical architecture and the growing interest in traditional materials and craftsmanship. There is a new emphasis on fresh air, natural light and spatial variety, reflecting the importance of well-being. Designers are considering issues such as orientation to the sun and prevailing winds to reduce energy consumption and carbon footprint. Instead of treating the tropical climate as something to overcome, the architects featured in this book present regional solutions on how to live appropriately in the contemporary tropical world.

These stories are elements of loud thinking triggered by the questions hurled at us by contemporary life. But, it doesn't preach or recommend any ideology to you. Some of these stories may enthrall you, some might lacerate you, some might tickle you and some might provoke you. Some might possibly provide you with new insights. Some could raise critical questions. Some might lead you to agree with the author's position. Some may provoke you to oppose him. The aim is to spur you into thinking on your own. A reader's mind is in no way inferior to a writer's. Instead of looking at life as a mere story, or story as a mere extension of imagination, it projects a vision of life through these stories. It treaded a path of equilibrium—no pomposity of dismissively treating grass-root's idiom; escaping the grip of pseudo-modernity complicating the written form of the language with the ostensible purpose of importing subtlety. Maalan V. Narayanan is an eminent award winning writer bilingual (Tamil and English) writer, bestowed with various coveted awards including Lee Kong Chian Research Fellowship of Singapore and "Krititva Samagra Samman" (award for wholesomeness in creativity) of Bharaiya Basha Parishad. He has served in Senates of various Universities and committees of National Book Trust and Sahitya Akademi. Dr. K.S. Subramanian, a former Director of Asian Development Bank, is an eminent translator who has won many awards for his translations. He holds a Ph.D from the University of the Philippines. He has translated more than 30 Tamil literary works of different genre into English and his translations have been published by many leading reputed publishers of India.
