The manual release device is an inline device which is connected to the end of the Kitchen Fire Suppression System sensor tubing. This device provides an independent possibility of operating the Kitchen Fire Suppression System without external power. To operate it, simply pull the safety device and push the red handle.

Kitchen Hood Fire Protection System & Equipment

The Kitchen Mister System is approved for use with Buckeye Shielded Cable instead of traditional conduit and corner pulleys for all system inputs and outputs. Buckeye Shielded Cable is Listed for the gas valve, detection line, and pull station. The Kitchen Mister System eliminates

File Type PDF Buckeye Hood System Manuals

the need for conduit in the plenum and requires only one anchor bracket in the exhaust hood. Simple and innovative design eliminates design and installation errors.
