While Buddhism has no central text such as the Bible or the Koran, there is a powerful body of scripture from across Asia that encompasses the dharma, or the teachings of Buddha. This rich anthology brings together works from a broad historical and geographical range, and from languages such as Pali, Sanskrit, Tibetan, Chinese and Japanese. There are tales of the Buddha's past lives, a discussion of the qualities and qualifications of a monk, and an exploration of the many meanings of Enlightenment. Together they provide a vivid picture of the Buddha and of the vast nature of the Buddhist tradition.

This is the extended and annotated edition including * an extensive annotation of more than 10.000 words about the history and basics of Buddhism, written by Thomas William Rhys Davids * an interactive table-of-contents * perfect formatting for electronic reading devices This book contains the essential Buddhist scriptures, as preserved by the Buddhists of Ceylon and Further India and which are in the Pali language, a language related to Sanskrit much as Italian is related to Latin; and for several centuries before and after Christ it was spoken in varying dialects over most of Northern India. Buddha, according to the Ceylon tradition, died 543 B.C., but it is generally agreed that this date is too early. The latest calculation by an Indian scholar, Mr. V. Gopala Aiyer, makes the date fifty-six years later, 487 B.C. Immediately after Buddha's death the first council is said to have been held at Rajagaha (now Rajgir in Behar on the borders of Bengal), where the Vinaya (discipline) and Dhamma (doctrine) were recited and fixed. The historical evidence for this council is much disputed, but it is extremely probable that some such collection was made about this time. Nothing was written down. It was preserved, as the Vedas had already been preserved for centuries, by memory. It is this very fact which strengthens the view that we possess a faithful picture of the preaching of Buddha, a preaching which extended over more than forty years. To determine to what extent the discourses have been worked up into other forms and added to, and especially how the rules of the Order have been gradually elaborated, is a work for future scholars. Contents: Introduction The Buddhist Scriptures Christian Parallels The Dream Of Queen Maya The Birth Of Gotama The Four Signs The Great Renunciation The Chain Of Causation The Beginning Of Buddha's Preaching The Ordination Of Yasa The Ten Commandments The Fire Discourse The Weaver's Daughter The Questions Of Malunkyaputta The Questions Of Uttiya The Questions Of Vacchagotta Birth-Story Of The Blessings Of The Commandments Birth-Story Of King Mahasilava Birth-Story Of The City With Four Gates The Pig-Faced Ghost The Jewel Discourse. A wide selection of readings from Pali, Sanskrit, Chinese, Tibetan, and modern sources inteded to provide the reader with a foundation in classical Buddhist thought.

Here is the core of the Buddha ' s teaching in his own words, as it was memorized word-for-word by his disciples and written down two hundred years after his death. These selections from the Buddhist scriptures deal with the search for truth, the way of contemplation, life and death, living in community, and many other topics, serving as an excellent small introduction to the Buddha ' s teaching. Whether addressed to monks and nuns, householders, outcastes, or thieves, the Buddha ' s teachings are characterized by one main concern: conveying the reality of our bondage to suffering—and the supremely good news that liberation is possible. It is a concern as relevant for people today as it was for the people of north India a millennium and a half ago.
