An Introduction to the Conservation of Hadith By Dr M ...

Dr. Muhammad Hamidullah, was born on February 9, 1908, in the state of Hyderabad Deccan in the Indian subcontinent. He was the youngest of 3 brothers and 5 sisters.

That Muhammad succeeded as a prophet is undeniable; a prominent military historian now suggests that he might not have done so had he not also been a great soldier. Best known as the founder of a major religion, Muhammad was also Islam's first great general. While there have been numerous accounts of Muhammad the Prophet, this is the first military biography of the man. In *Muhammad: Islam's First Great General*, Richard A. Gabriel shows us a warrior never before seen in antiquity—a leader of an all-new religious movement who in a single decade fought eight major battles, led eighteen raids, and planned thirty-eight other military operations. Gabriel's study portrays Muhammad as a revolutionary who introduced military innovations that transformed armies and warfare throughout the Arab world. Gabriel analyzes the environment in which Muhammad lived and the religion he inspired as they relate to his military achievements. Gabriel explains how Muhammad changed the social composition of Arab armies by replacing traditional ways of fighting with a new command structure.

Muhammad's transformation of Arab warfare enabled his successors to establish the core of the Islamic empire—an accomplishment that, Gabriel argues, would have been militarily impossible without Muhammad's innovations. Richard A. Gabriel challenges existing scholarship on Muhammad's place in history and offers a viewpoint not previously attempted.

Since the past century, orientalist works had challenged the authenticity of Hadith material (sayings of the Prophet), claiming that these collections of hadiths were done orally and therefore subject to misreporting and alterations. Dr Hamidullah discovered very early collections of hadiths preserved in libraries in Turkey, France and Germany, and on the basis of these, refuted the misgivings spread by orientalists. This work selects the collections of Hammam ibn Munabbih, a disciple of a companion of the Prophet to substantiate his arguments.

Islam and International Law explores the multi-faceted relationship of Islam and international law. Current debates on Sharia, Islam and the "West" often suffer from prejudice and platitudes. The book seeks to engage such self-centrism by providing a plurality of perspectives, both in terms of interdisciplinary research and geographic backgrounds.
