Health Criteria ...

7.2.2 Environmental and health effects of carbon monoxide. Carbon monoxide is a colorless, odorless gas that is very stable and has a life of 2 to 4 months in the atmosphere [2]. Similar to organic compounds,

Read Online

Carbon

Carbon monoxide is formed when fuel is not burned completely. Carbon monoxide appears to have no detrimental effects on material surfaces [2]. At ambient concentrations, experiments have not shown CO to produce any harmful effects on plant life.
