Chapter 7 Lesson 3 Worksheets - Kiddy Math

This chapter is a deep dive into solving many types of equations and inequalities. You will begin by learning how to solve two-step and multi-step equations. After rocking these topics you will master solving equations with variables on both sides. The chapter then turns to a neat exploration of solving two-step inequalities and literal equations. You will close out this part of your math trip with a lesson on simple and compound interest.

GED Math Chapter 7: Understanding Inequalities – Lesson 3. OK, welcome to this final lesson on inequalities. In this lesson I will teach you compound inequalities. These type of inequalities are like two linear inequalities in one statement. So you really want to make sure you understand the previous lesson before taking on compound inequalities. Furthermore the skills we are building in this chapter come into play in other chapters so make sure you study hard-inequalities are certain to ...
