Children's Therapy Solutions work with children and young people (aged 0-24) and their families. We help by making it easier for children to experience, explore and develop in their everyday living - playing with friends, accessing learning, adapting the environment by recommending specialist equipment and getting out and about in the community. We practise a holistic approach, valuing input from home, school, clubs, and other agencies to give us a full picture of how children and young ...

Therapists often despair when considering
using Solution-Focused Brief Therapy (SFBT),
so successful with adults, with children.
Insoo Kim Berg and Therese Steiner show this
despair to be unwarranted. These two master
therapists lead readers through a series of
conceptual and practical steps that elucidate
just how the nonverbal, playful, and creative
habits of children can support successful
therapy based on the SFBT model. Children's

concern for their development'linicians, social workers, teachers, daycare workers, and parents. By focusing on and expanding the bases for engagement and communication between adult and child, Berg and Steiner provide adaptable tools for diagnosis, therapy, and negotiating differences at home. Full of examples and case studies, the Children's Solution Work demonstrates creative techniques and strategies for working with children without relying exclusively on language or conceptual thinking. The application of these techniques is discussed in various contexts and situations, including adapting them to suit cases of children with uncommon needs. Berg and Steiner also address questions typically raised by clinicians about the use of SFBT with children and consider the usefulness of this form of SFBT when working with adolescents.

Solution focused approaches offer proven ways of helping children overcome a whole range of difficulties, from academic problems to mental health issues, by helping them to identify their strengths and achievements. Based on solution focused practice principles, this book illustrates communication skills and playful techniques for working with all children and young people, regardless of any health, learning or development need. It demonstrates how the approach can capture children's views, wishes

and worries, and can assist them in identifying their strengths and abilities. The approach encourages positive decision-making, and helps children to overcome challenges, achieve their goals and reach their full potential. The book is packed with case examples, practical strategies, and practice activities. This valuable text will be of great use to a range of practitioners working with children and young people, including social workers, youth workers, counsellors, teachers and nurses.

This practice-oriented book demonstrates an innovative, effective, brief therapy approach for time-sensitive assessment and intervention with children and families. With trademark creativity, flexibility, and humor, Matthew Selekman combines the best elements of a range of current approaches with family play and art therapy techniques, to create a comprehensive solution-focused model. Illustrated by numerous case examples and session transcripts, and supported by empirical research, Solution-Focused Therapy with Children helps frontline clinicians--regardless of level of experience--master the skills they need to bring about rapid, lasting change.

Solution-Focused Therapy with Children and Adolescents offers mental health professionals an integration of creative and playful approaches and solution-focused therapy. The author presents developmentally

appropriate and expressive alternatives to oral communication including sandtray, writing, puppetry, drawing and coloring, photography, and music. The text presents an overview of strength-based and creative approaches with a focused examination of the philosophy and process of solution-focused therapy, then divides chapters into specific stages of therapy—beginnings, searching for treasure, setting goals, and ending the session—with creative techniques offered in each section. The final chapter addresses working with children and adolescents in solution-focused groups, including how to set up groups and progress through different group stages, presenting specific techniques and activities focused on each stage of the group process.

Brief Coaching with Children and Young People: A Solution Focused approach is the first book of its type to describe the thinking and practice of Solution Focused coaching with these age groups. The approach empowers young people to find their own solutions in the shortest possible time, focusing on where they want to get to rather than the details of the problem they are concerned about. The authors' emphasis on practical and straightforward techniques and materials will equip all those interested in working with and supporting young people and their families to help them achieve their hopes for the future. The book is illustrated

with numerous examples from the coaching practice of the authors in different settings, with a particular emphasis on challenging cases. As a whole, it serves as a key resource for working with children and young people, but each chapter can also be read individually to enhance the reader's understanding of the topic. Downloadable resources are available online which enhance the practicality of the text. Ratner and Yusuf have created a practical, jargon-free resource for all those who work with and support children, young people and their families. It will be invaluable for coaches, therapists and counsellors as well as anyone who interacts with children and young people, including social workers, teachers and mentors and foster parents.
