CIBSE Guide B4: Noise and Vibration Control for Building Services Systems

Amazon.co.uk: cibse guide a

CIBSE recommends that buildings with mechanical ventilation extend operation times, with nominal ventilation being established two hours before and after building usage time. In demand-control systems, CO 2 setpoints should be set to 400ppm to increase delivery of outside air, says CIBSE, which adds that ventilation should be kept on 24/7, with lower ventilation rates when people are absent.

Cibse Guide A: Design Data by Chartered Institute of ...

This CIBSE COVID-19 ventilation guidance is intended to give business owners and managers an outline of ventilation systems commonly encountered in buildings to assist in the preparation to re-open workplaces. This guidance will inform considerations of safe working practices and the provision of ventilation in buildings.

CIBSE COVID-19 Ventilation Guidance

CIBSE Guide H (CIBSE, 2009a) includes some feedback from occupant surveys on lighting controls, which shows that the following should be borne in mind: People are good at judging whether they need the lights on: therefore, do not switch lights on or increase brightness automatically unless this is essential for safety, or appropriate for managed areas.
