It's Personal: A Case Study Close to Home I've always been fascinated with medicine and the human body, knowing that I wanted to make a career of it since childhood. Hearings were held concerning community-based mental health services for children. In an opening statement, Chairwoman Schroeder discussed issues of children's mental health and suggested that the committee study: (1) the effectiveness of community-based care in a model service system in California; (2) the importance of having service systems in place prior to a crisis; (3) creative funding strategies; and (4) the impact of inappropriate services on families. A fact sheet discusses the prevalence of childhood mental health problems; youth homelessness; lack of mental health care for children; inappropriate institutionalization; inadequate research in childhood mental health; inadequate insurance; and limited federal support. Statements from other committee members were included in the record. Seven other individuals presented statements. These statements included descriptions of the attempts of the State of Virginia to restructure its services and funding to better meet the needs of troubled youths and families; a demonstration community-based services project at Fort Bragg, North Carolina; and the California model system of care, a system expanded from the earlier Ventura model. In the tradition of Anne Rivers Siddons and Pat Conroy comes this sensual, beautifully written novel of the South, about a world on the verge of change and the secrets it fears will be revealed When you enter the town of Fawley, you take a step back to a simpler time, back to when neighbors shared potluck dinners, church socials were the only parties decent people attended, and people knew who they were and what they valued—and didn't tolerate outsiders who tried to change things. It is into this closed but nonetheless appealing community that Danny Crane brings his new wife, Lydia. They met at Myrtle Beach, where they spent a week in the rush and confusion of falling in love. The relationship that ensued startled them both, and the fact that they married six months later was equally disorienting. It was an act of passionate conviction and blind faith. From the outset, Lydia finds Fawley to be different from the exclusive and privileged environment in which she was raised, secure in both "name" and "position" in her family's stately home in the Georgetown section of Washington, DC. But gradually Lydia comes to realize that few things in Fawley are as they seem, for behind the serenity and the clean-scrubbed façades, there exists a tradition of suspicion and anger, of hostility toward outsiders and fear of change of any kind. Even more disturbing is her realization that Danny, too, is not what he had seemed—that beneath the easy charm lies a darkness borne of distrust and deception, and of secrets too closely kept. In a struggle to hold on to the marriage she continues to believe in, Lydia is forced to confront the forces that have shaped her husband—the town of Fawley itself, and Danny's family, most especially his cousin Kyle, whose personal magnetism even Lydia has to acknowledge, but whose hold on those around him becomes more and more destructive. Filled with the heat generated by passions too long suppressed and secrets too long kept buried, Close to Home is both a sensual and a literary gem.

It is 20 years since environmental issues were first put on the international agenda at the Stockholm Conference, and concern for planetary survival has shifted from desertification to acid rain to ozone depletion to biodiversity. The official responses to all the various crises, however, has largely been one of offering technological and managerial 'fixes,' which often fail to address or solve the basic ecological issues. Genuine, viable improvements can only be implemented at ground level, by those most strongly affected by the problem. Because of their location 'on the fringes,' and their traditional role in providing sustenance, it is women who are often able to offer ecological insights that are deeper and richer than the technocratic recipes of international experts, or the responses of men in their own societies. Close to Home emphasises that the environment is not some distant concern, but one that affects the health and well-being of communities on a daily basis. For women, 'the environment' is the place in which we live. The contributions in this book, edited by Vandana Shiva, show how women worldwide are taking action at grass-roots level, battling toxic wastes, low-level radiation and biotechnology in the struggle for truly sustainable community development.

CLOSE TO HOME: Westen Series, book #1, where small-town romance meets an edge of suspense. "Welcome to Westen. I'm Lorna Doone. Yep, spelled just like the cookie and I own the Peaches 'N Cream Café here in Westen. You might think nothing much happens in a small mid-western town, but as my friend Harriett says, things aren't always what they appear. Take our girl Emma for example." Emma Lewis has a lot on her plate. The single mother of two precocious twin boys and an aging mother who is having trouble getting through each day, the last thing Emma needs is a man in her life, especially a doctor. So when the town's doctor goes on vacation and his handsome nephew takes over, Emma is shocked to not only find him standing in her bedroom, but accusing her of being a neglectful parent. Clint Preston came to Westen for the year to fill in as the town doc while his uncle took a long needed vacation. Clint also needed a sense of peace and calm to try to find his passion for medicine burned out by long shifts in an urban hospital's ER. Angered to find two boys in his clinic with broken wrists and no accompanying parent, he is determined to confront their mother. The feisty redhead he meets quickly dispels his belief that she's a neglectful mother, but he can see her situation is more critical than she wishes to face and finds himself volunteering to help care for her sons and the remodeling of her home. As Emma and Clint forge a relationship among the slightly off-beat characters that inhabit Westen a menace from Emma's past threatens her and her sons. Clint and Emma join forces to prevent the loss of either boy and the love they've discovered in each other's' arms. CLOSE TO THE EDGE: Westen Series, book#2 After facing death as an undercover narcotics cop, Gage Justice has come home to heal. Biding time until his father's term is finished, he fights boredom more than crime in the sleepy little town—that is until one sexy little teacher-turned-Private-Investigator literally falls into his arms. Bobby Roberts is looking for adventure. After giving up her own dreams to raise her two sisters after the death of their parents, she's been trapped in a schoolroom for nearly two decades. The suffocating claustrophobia of the classroom has set her on a new career path. She arrives in Westen, complete with brand-spanking-new PI license, a handgun and a simple case—investigate a lien on property of a dead man. Little does she realize her "simple little case" will lead her into the world of one sexy sheriff and the path of a murderer intent on keeping them both from discovering his secrets or stopping his plans that could destroy Westen.
