Sterling Connect:Direct resolves the command as follows: PACCT="DEPT\MIS602" Combine that with this reference (Sterling Connect:Direct for Microsoft Windows System Guide - it is probably also detailed elsewhere in the Windows documentation for Connect:Direct)

parsing - Connect:Direct syntax on IBM z/OS Mainframe ...

Connect:Direct—originally named Network Data Mover (NDM)— is a computer software product that transfers files between mainframe computers and/or midrange computers. It was developed for mainframes, with other platforms being added as the product grew. NDM was renamed to Connect:Direct in 1993, following the acquisition of Systems Center, Inc. by Sterling Software. In 1996, Sterling Software executed a public spinoff of a new entity called Sterling Commerce, which consisted of the ...
