Connecting Families | SpringerLink
This book explores the various ways in which family members "connect" within the same household, across distance, or across time. It investigates the impact of new communication technologies on domestic life and the changing nature of connection across a variety of family relationships, including couples, parents and children, adult siblings, and grandparents and grandchildren.

The impact that loneliness and social isolation can have on the physical, mental and social health of isolated older people is well documented. The Campaign to End Loneliness points to research which shows that lacking social connections is as

damaging to health as smoking 15 cigarettes a day.

Tackling loneliness and social isolation: the role of ...
The Families Commission Blue Skies Fund recently published a different report, titled New Communication Technologies and Family Life (Weatherall and Ramsay, 2006), which looked at how technology, such as computers and mobile phones, is shaping family life and how families are shaping the use of technology.

The Impact Of Technology On Family Communication Media Essay
The potential of such a shift is enormous, in terms of the impact it can have on people, communities and on the sustainability of the NHS. A key building block for person-centred care is peer support – ways of connecting people with similar health conditions or experiences to provide each other with emotional and practical support.
