Cosmos, Bios, Theos: Scientists Reflect on Science, God ...

How does modern science bear upon such ultimate questions as the origin of the universe and the existence of God? "Cosmos, Bios, Theos" is a portfolio of opinions and arguments from 60 scientists, including 24 Nobel Prize winners, on the relationship between the scientific enterprise and the religious view of reality. "Cosmos, Bios, Theos" makes no claim to being a representative survey - the ...

Cosmos, Bios, Theos: Scientists Reflect on Science ...

Cosmos, Bios, Theos makes no pretension to being a statistically significant survey of the religious beliefs of modern scientists. The scientists interviewed for this anthology are, for the most part, known to be theistic or at least sympathetic to a religious view of reality.
