"Life, just like a design problem, is full of constraints--time, money, age, location, and circumstances. You cannot have everything, and if you want more out of it, you have to be creative about how to make what you need and what you want co-exist. This requires design thinking. Design the Life You Love uses a simple but proven creative thinking and design process to give ordinary people new tools to think about life differently, and also includes fascinating examples from the world of art and design that relate to each step of the process, plus guided creative exercises."--
