ASTM E2611 - 09 Standard Test Method for Measurement of Normal
Incidence Sound Transmission of Acoustical Materials Based on the
Transfer Matrix Method Products and Services / Standards &
Publications / Standards Products

ASTM E2611 - 09 Standard Test Method for Measurement of ...

astm e2611-09 Standard Test Method for Measurement of Normal Incidence Sound Transmission of Acoustical Materials Based on the Transfer Matrix Method 1.1 This test method covers the use of a tube, four microphones, and a digital frequency analysis system for the measurement of normal incident transmission loss and other important acoustic properties of materials by determination of the acoustic transfer matrix.

ASTM E2611-09 - Standard Test Method for Measurement of ...

E2611-09 Standard Test Method for Measurement of Normal Incidence Sound Transmission of Acoustical Materials Based on the Transfer Matrix Method, 2009 - MADCAD.com You currently cannot view this content. (Content only available by subscription.)

E2611-09 Standard Test Method for Measurement of Normal ...

Designation E2611 09 Standard Test easurement of Normal Incidence Sound Transmission of Acoustical Materials Based on the Transfer Matrix 1 This standard is issued under the fixed designation E2611; the number immediately following the designation indicates the year of original adoption or, in the case of revision, the year of last revision.

ASTM E2611 - 19 Standard Test Method for Normal Incidence ...

The impedance tube system, based on the ASTM E2611-09 standard (ASTM E2611, 2009) for measuring the normal incidence transmission loss (TL) is schematically illustrated in Fig 1a. The TL results is calculated with two microphones positioned at the upstream and two more microphones positioned downstream of the test sample as shown in Fig. 1b.

Sound transmission properties of mineral-filled high ...

EZ2611 is an automated testing application designed to efficiently perform sound transmission tests on materials in an impedance (Kundt) tube to the ASTM E2611-09* standard. Contact us for more details or to schedule an online demonstration.

EZ2611 Normal Incidence Sound Transmission Application ...

The ASTM E2611-09 standard test procedure for measuring an STL utilises a transfer matrix method for the calculation. The data for the calculations are obtained from the sound pressure measurements from four microphones, two positioned between the sound source and the specimen and two positioned on the opposing
