The most comprehensive, accurate, and fully customizable exterior ballistics software available on mobile devices! Validated and in use by professional snipers and hunters! Accuracy is basically only limited by the accuracy of user's input. This Ballistics calculator computes accurate trajectories of any type of projectile, or bullets from airguns or firearms. * Easy computation of scope hold ...

Exterior Ballistics Calculator - Apps on Google Play

In small arms external ballistics applications, gravity imparts a downward acceleration on the projectile, causing it to drop from the line of sight. Drag, or the air resistance, decelerates the projectile with a force proportional to the square of the velocity. Wind makes the projectile deviate from its trajectory.
