First in the Justice Series. Special Crimes Unit investigator Detective Sergeant Rebecca Frye is attempting to solve a series of sexual assaults and running into dead ends at every turn. Finally, she has a break in the case—a witness—one person who may help her bring a madman to justice. But, the witness is a victim herself and Rebecca must convince the injured woman's physician, Dr. Catherine Rawlings, to assist her—a task that will force both women to confront their own darkest fears. Amidst professional conflicts and a growing mutual attraction, the two women become reluctant allies in the battle to stop the perpetrator before he strikes again.

A motorcycle's electrical system can be daunting to even the most adept home mechanic. And yet, the more complex these systems become—and the more important to a motorcycle's function—the more useful, even critical, it will be to know something about them. That's where this book comes in with a user-friendly guide to understanding, diagnosing, and fixing the electrical systems and components that make a bike run . . . or falter. Veteran technician Tracy Martin explains the principles behind motorcycle electrical systems and how they work. He details the various tools, such as multimeters and test lights, that can be used to evaluate and troubleshoot any vehicle's electrical problem. And in several hands-on projects, he takes readers on a guided tour of their vehicle's electrical system, along the way giving clear, step-by-step instructions for diagnosing specific problems.
