I am Ozzy is both funny and poignant in many places. It's amazing some of the things Ozzy has done in his life, but he still seems to be as down to earth and humble as he always was (minus the drugs and booze) He can acknowledge his own faults, and still come across in a humorous way that makes me both admire and feel sorry for him.

The final word in sex, drugs, and rock-and-roll, heavy metal legend Ozzy Osbourne shares his unbelievable story for the first time in this tell-all memoir. "They've said some crazy things about me over the years. I mean, okay: 'He bit the head off a bat.' Yes. 'He bit the head off a dov..."

I Am Ozzy en Apple Books

I Am Ozzy is a quick and fun read. Ozzy goes for a conversational and light tone as he tells his hilarious road stories, but like some recent rock and roll autobiographies that I've recently read (Slash & The Heroin Diaries), Ozzy devotes an over-proportionate amount of time going over and over his alcohol and drug abuse. I was afraid that the book might turn into a dissertation about what happens when you become an addict, then hypocritically preach to the reader about staying off drugs.

"They've said some crazy things about me over the years. I mean, okay: 'He bit the head off a

bat.' Yes. 'He bit the head off a dove.' Yes. But then you hear things like, 'Ozzy went to the show last night, but he wouldn't perform until he'd killed fifteen puppies . . .' Now me, kill fifteen puppies? I love puppies. I've got eighteen of the f**king things at home. I've killed a few cows in my time, mind you. And the chickens. I shot the chickens in my house that night. It haunts me, all this crazy stuff. Every day of my life has been an event. I took lethal combinations of booze and drugs for thirty f**king years. I survived a direct hit by a plane, suicidal overdoses, STDs. I've been accused of attempted murder. Then I almost died while riding over a bump on a quad bike at f**king two miles per hour. People ask me how come I'm still alive, and I don't know what to say. When I was growing up, if you'd have put me up against a wall with the other kids from my street and asked me which one of us was gonna make it to the age of sixty, which one of us would end up with five kids and four grandkids and houses in Buckinghamshire and Beverly Hills, I wouldn't have put money on me, no f**king way. But here I am: ready to tell my story, in my own words, for the first time. A lot of it ain't gonna be pretty. I've done some bad things in my time. I've always been drawn to the dark side, me. But I ain't the devil. I'm just John Osbourne: a working-class kid from Aston, who quit his job in the factory and went looking for a good time."

factory and went looking for a good time.

One of television's best loved personalities via the wildly successful hit MTV show The Osbournes, Ozzy tells about his days on the road and the heartbreak he suffered during those days of hard living.

Wondering if science could explain how he survived his 40-year avalanche of drugs and alcohol, Ozzy Osbourne became one of a handful of people in the world to have his entire DNA mapped in 2010. It was a highly complex, \$65,000 process, but the results were conclusive: Ozzy is a genetic anomaly. The "Full Ozzy Genome" contained variants that scientists had never before encountered and the findings were presented at the prestigious TEDMED Conference in San Diego-making headlines around the world. The procedure was in part sponsored by The Sunday Times of London, which had already caused an international fururoe by appointing Ozzy Osbourne its star health advice columnist. The newspaper argued that Ozzy's mutliple near-death experiences, 40-year history of drug abuse, and extreme hypocondria qualified him more than any other for the job. The column was an overnight hit, being quickly picked up by Rolling Stone to give it a global audience of millions. In TRUST ME, I'M DR. OZZY, Ozzy answers reader's questions with his outrageous wit and surprising wisdom, digging deep into his past to tell the memoir-style survival stories never published before-and offer guidance that no sane human being should follow. Part humor, part memoir, and part bad advice, TRUST ME, I'M DR. OZZY will include some of the best material from his published columns, answers to celebrities' medical questions, charts, sidebars, and

more.

The name 'Tony Iommi' sends shivers down the spines of guitarists around the world. As lead guitarist and songwriter of Black Sabbath, Tony Iommi is considered to be one of the most influential musicians of the past four decades and the inventor of heavy metal. From working class, Midlands roots, his unique playing style - a result of a disfiguring hand injury he suffered working in a sheet metal factory - created a dark and gothic sound unlike anything that had been heard before and which captured the mood of its time. Sabbath went on to become a superband, playing to massive audiences around the world and selling millions of records, and Iommi led the life of a rockstar to the fullest - with the scars from all the drug-fuelled nights of excess and wildness to show for it. Iron Man is the exclusive account of the life and adventures of one of rock's greatest heroes.

The final word on the only name synonymous with heavy metal - Black Sabbath. Way back in the mists of time, in the days when rock giants walked the earth, the name Ozzy Osbourne was synonymous with the subversive and dark. Back then, Ozzy was the singer in Black Sabbath, and they meant business. A four-piece formed from the ashes of two locally well-known groups called The Rare Breed (Ozzy and bassist Geezer Butler) and Mythology (guitarist Tony Iommi and drummer Bill Ward), all four founding members of the original Black Sabbath grew up within half-a-mile of each other. This biography tells the story of how

Read Free I Am Ozzy

they made that dream come true - and how it then turned into a nightmare for all of them. How at the height of their fame, Sabbath discovered they had been so badly ripped off by their managers they did not even own their own songs. How they looked for salvation from Don Arden - an even more notorious gangster figure, who resurrected their career but still left them indebted to him, financially and personally. And how it finally came to a head when in 1979 they sacked Ozzy: 'For being too out of control - even for us,' as Bill Ward put it. The next 15 years would see a war break out between the two camps: the post-Ozzy Sabbath and Ozzy himself, whose solo career overshadowed Sabbath to the point where, when he offered them the chance to reform around him again, it was entirely on his terms. Or rather, that of his wife and manager, daughter of Don Arden - Sharon Osbourne.

Immerse yourself in the glorious story of Black Sabbath with the stories of their classic songs, in one beautifully illustrated volume. This celebration of 50 years of Sabbath includes rare-on-the-page memorabilia throughout the book as it tells the story of the band and all their classic songs, as well as the hugely popular hits from Ozzy as a solo artist.

So you think you know the Osbournes? Think again. Here is the real story of the real people. Sharon and Ozzy tell us about their early careers, their relationship and how they became one of rock and roll's most enduring and much-loved couples. Here you will find the music, the drugs, the booze, the domestic violence and the excesses of rock stardom. But you will also find an incredibly moving picture of a family surviving in the midst of a media maelstrom. Having grown up and become famous in their own right, Aimee, Kelly and Jack

Read Free I Am Ozzy

reflect upon their parents' relationship, their household of extremes and what it was like growing up with the Prince of Darkness. But through all of the family traumas - Ozzy's multiple addictions, Sharon's cancer, Aimee's despair, Kelly's tantrums and Jack's drug abuse - the family have stuck together. This is a book for Ozzy fans, but also for all those interested in the music industry and in the story of ordinary people living extraordinary lives.
