Documents and Manuals - International Civil Aviation ...

Of critical importance to the future of civil aviation and to the international community at large are the measures taken by ICAO to prevent and suppress all acts of unlawful interference against civil aviation throughout the world. SARPs for international aviation security were first adopted by the ICAO Council in March 1974, and designated as Annex 17 to the Chicago Convention.

Annex 17 - International Civil Aviation Organization

Over the years, its work in the field of aviation security broadened and today is essentially carried out in three inter-related areas: policy initiatives, audits focused on the capability of Member States to oversee their aviation security activities, and assistance to States that are unable to address serious security deficiencies highlighted by ICAO audits. Security audits are performed under the Universal Security Audit Programme, which is managed by the Aviation Security Audit (ASA ...

Security - International Civil Aviation Organization

Doc 9985 complements the Aviation Security Manual (Doc 8973–Restricted) and provides guidance on security issues specific to air traffic management (ATM) in order to assist States and air navigation service providers (ANSPs) in implementing appropriate security provisions to meet the published requirements of National Civil Aviation Security Programmes (NCASP). In addition, the manual provides guidance to the ANSP on provision of ATM security services in support of national security and ...

Air Traffic Management Security Manual (Doc 9985 - ICAO Store)

Screeners should reinforce processes with passengers accessing divesting areas, such that they properly divest and are less likely to cause a false alarm (to minimize the use of manual searches). Routine enhanced cleaning and disinfecting should be conducted, if required, of frequently touched/exposed surfaces and security screening equipment, including trays at the security checkpoint and ...
