Americans are expressing deep concern about US dependence on petroleum, rising energy prices and the threat of climate change. Unlike the energy crisis of the 1970s, however, there is a lurking fear that, now, the times are different and the crisis may not easily be resolved. The Long Descent examines the basis of such fear through three core themes: Industrial

society is following the same well-worn path that has led other civilizations into decline, a path involving a much slower and more complex transformation than the sudden catastrophes imagined by so many social critics today. The roots of the crisis lie in the cultural stories that shape the way we understand the world. Since problems cannot be solved with the same thinking that created them, these ways of thinking need to be replaced with others better suited to the needs of our time. It is too late for massive programs for top-down change; the change must come from individuals. Hope exists in actions that range from taking up a handicraft or adopting an "obsolete" technology, through planting an organic vegetable garden, taking charge of your own health care or spirituality, and building community. Focusing eloquently on constructive adaptation to massive change, this book will have wide appeal.

From the groundbreaking "A Coney Island of the Mind" in 1958 to the personal epic of "Americus, Book I" in 2003, Ferlinghetti has been the poetic conscience of America. In this work, he offers--in prose--what poetry is, could be, and should be.

Presentation Silence, the highest region of our soul. Of all languages, silence is that of perfection because it is the expression of our spirit that prompts us to review our life, to reflect on it and to learn from it. All this work of detachment, simplification and synthesis leads us to the true understanding of things, which is the essential goal of all spiritual practice. ' How wrong we are to think that silence denotes emptiness, nothingness, the absence of all activity or creation. In reality, there is more than one kind of silence: the silence

of death and the silence of a higher degree of life. It is this silence, that of the higher degree of life, that concerns us here and that we must try to understand. This is not the silence of inertia; on the contrary, it is the stillness that surrounds a work of great intensity taking place in a climate of perfect harmony. Nor is it emptiness or absence; on the contrary, it is fullness, a fullness comparable to that experienced by two human beings who love each other very deeply and share something that cannot be expressed in words or gestures. Silence is a quality of the inner life. Originally published in Portuguese as Grande Hotel Abismo In the last two decades recognition - arguably one of the most central notions of the dialectical tradition since Hegel - has once again become a crucial philosophical theme. Nevertheless, the new theories of recognition fail to provide room for reflection on transformation processes in politics and morality. This book aims to recover the disruptive nature of the dialectical tradition by means of a severe critique of the dominance of an anthropology of the individual identity in

contemporary theories of recognition. This critique implies a thorough rethinking of basic concepts such as desire, negativity, will and drive, with Hegel, Lacan and Adorno being our main guides. The Marxist philosopher György Lukács said that the Frankfurt School (Horkheimer, Adorno, etc.) left us with nothing but negativity towards the state of the world. Their work failed to open up a concrete possibility of practical engagement in this world. All too eager to describe the impasses of reason, the Frankfurt philosophers remained trapped in a metaphorical Grand Hotel Abyss (Grand Hotel Abgrund). It was as living and being guardian of lettered civilization in a beautiful and melancholy grand hotel, of which the balconies face a gaping abyss. But perhaps in this way Lukács gave – and no doubt without realizing it himself – a perfect definition of contemporary philosophy, namely to confront chaos, to peer into what appears to a certain rationality as an abyss and to feel good about it. Touching Hegelian dialectics, critical theory and psychoanalysis, Grand Hotel Abyss gives a new meaning to the notion of negativity as the first essential step for rethinking political and moral engagement.

A literary phenomenon in Italy, this European best-seller was voted the best Italian novel of the decade in a public survey. Its success has gone way beyond Italy, having been translated into Spanish, French, Japanese and 3 other languages. This epic historical novel about World War II and after, written from the author's own personal experiences as an Italian Freedom Fighter, is a profoundly moving account of the war, those who fought in it on both sides, and the effects the war had on families in the author's hometown in northern Italy. On a wider scale, it is a faithful witness to the actual events of the war-including the historic personages

who appear, the Russian campaign, the Nazi barbarism, the Communist gulag, the North Italian resistance, and beyond to the political life in the two decades after the war. This world, filled with powerful personalities, drama and clashing armies, bathes in the complex light of the truth. A truly great historical novel with its epic scope, what makes this a masterpiece is the underlying spiritual dimensions of the protagonist, his family and friends, which illuminates the ongoing tragedy of the war and its aftermath. In the end, it is a story of faith and hope in a world reduced to barbarism and cruelty.

In *Where You Once Belonged*, the bestselling and award-winning novelist of Eventide, Kent Haruf tells of a small-town hero who is dealt an enviable hand--and cheats with all of the cards. Deftly plotted, defiantly honest, *Where You Once Belonged* sings the song of a wounded prairie community in a narrative with the earmarks of a modern American classic. In prose as lean and supple as a spring switch, Haruf describes a high school football star who wins the heart of the loveliest girl in the county and the admiration of men twice his age. Fun-loving, independent, Burdette engages in the occasional prank. But when he turns into a man, his high jinks turn into crimes--with unspeakable consequences. Now, eight years later, Burdette has returned to commit his greatest trespass of all. And the people of Holt may not be able to stop him.

Celebrated as a courtesan and poet, and as a woman of great intelligence and wit, Tullia d'Aragona (1510–56) entered the debate about the morality of love that engaged the best and most famous male intellects of sixteenth-century Italy. First published in Venice in 1547,

but never before published in English, Dialogue on the Infinity of Love casts a woman rather than a man as the main disputant on the ethics of love. Sexually liberated and financially independent, Tullia d'Aragona dared to argue that the only moral form of love between woman and man is one that recognizes both the sensual and the spiritual needs of humankind. Declaring sexual drives to be fundamentally irrepressible and blameless, she challenged the Platonic and religious orthodoxy of her time, which condemned all forms of sensual experience, denied the rationality of women, and relegated femininity to the realm of physicality and sin. Human beings, she argued, consist of body and soul, sense and intellect, and honorable love must be based on this real nature. By exposing the intrinsic misogyny of prevailing theories of love, Aragona vindicates all women, proposing a morality of love that restores them to intellectual and sexual parity with men. Through Aragona's sharp reasoning, her sense of irony and humor, and her renowned linguistic skill, a rare picture unfolds of an intelligent and thoughtful woman fighting sixteenth-century stereotypes of women and sexuality.

'The Political Theatre' is among the most important documents of the modern stage. It tells of the foundation and flowering in Weimar Germany of a new form of theatre - epic theatre - designed to bring on to the stage the real political issues of the time, and to do so with all the aids that modern technology could supply.
