“In My Shoes”... si tratta di un'autobiografia romanzata; racconta la mia vita nei momenti più emozionanti, i miei più grandi arrovellamenti, le tribolazioni, le ossessioni e la delizia. La vita vista dagli occhi di Susanna, Susy per i più, esperto linguistico d'impresa, quarant'anni, un marito, due figli, tre tatuaggi, una valanga di libri, un universo di sogni e “duemilacredici” speranze. Il mio libro racconta di chi come me cerca invano l'equilibrio sotto la follia delle diverse maschere della vita: mamma, donna, moglie, amica, confidente; naturalmente e perfettamente TUTTO questo e molto altro. Racconta dei momenti in cui credevo di non farcela e di quelli in cui mi chiedevo se si potesse

In this innovative book Fabio Folgheraiter presents a systematic introduction to networking and reflexive practice in social work. The text explores how the interested parties in social care can acquire a shared power in care planning and decision making and that when this networking occurs, the efficacy of caring initiatives increases.

Selected as an Outstanding Academic Title by Choice Magazine, January 2010 Classroom talk, by which children make sense of what their peers and teachers mean, is the most important educational tool for guiding the development of understanding and for jointly constructing

knowledge. So what practical steps can teachers take to develop effective classroom interaction? Bringing together leading international researchers and drawing on the pioneering work of Douglas Barnes, this book considers ways of improving classroom talk. Chapters cover: - classroom communication and managing social relations; - talk in science classrooms; - using critical conversations in studying literature; - exploratory talk and thinking skills; - talking to learn and learning to talk in the mathematics classroom; - the 'emerging pedagogy' of the spoken word. With an accessible blend of theory, research and practice, the book will be a valuable resource for teachers, teacher-trainers, policy makers, researchers and students.

Human rights cannot be defended by legal measures alone. They need to be protected and safeguarded by everyone, including young people. Human rights are best respected and appreciated when we know them, stand up for them and apply them in our lives. COMPASS provides youth leaders, teachers and facilitators of human rights education activities, whether professionals or volunteers, with concrete ideas and practical activities to engage, involve and motivate young people in living, learning and acting for human rights. It promotes a comprehensive perspective on human rights education and sees young people as actors for a culture of universal human rights. COMPASS was originally published in 2002 and is now available in more than 30 languages. A version specifically designed for human rights education with children - COMPASITO - enjoys a similar success.

Despite nearly sixty years of European integration, neither nations nor national loyalties have withered away. On the contrary, national identity rhetoric seems on the rise, not only in politics but also in legal discourse. Lately we have seen a rise in the number of Member States invoking

their national identity in an attempt to justify a derogation from a requirement imposed on them by a Treaty article or an EU legislative act, or to legitimize a particular national reading of such an EU norm. Despite this, the European Court of Justice (ECJ) has yet to develop a coherent approach to such arguments, or express a vision of the role national identity should play in EU law. Elke Cloots undertakes this task by providing a principled and coherent scheme for the adjudication of disputes involving claims based on the national identity of a Member State. Should arguments involving national identity be legally relevant? If yes, how should the ECJ approach such identity-related interests? Cloots crafts a normative framework to assist the ECJ in striking the right balance between European integration and respect for the identity concerns at issue. The book combines

rigorous theoretical inquiry with thorough analysis of the European Treaties and case law, with particular attention paid to litigation involving domestic measures concerning the national system of government, constitutional rights protections, and language policy. Clarifying the issues at stake and presenting a solution to these problems, this book will be an invaluable resource for the academics, lawyers, and policy makers in the field.
