International Environmental Law and World Order: A Problem ...

International Environmental Law (IEL) is concerned with the attempt to control pollution and the depletion of natural resources within a framework of sustainable development. It is a branch of public international law - a body of law created by states for states to govern problems that arise between states.

International Environmental Law - Public International Law ...

International environmental law International environmental law (sometimes, international ecological law) is a field of international law regulating the behavior of states and international organizations with respect to the environment. See Phillipe Sands, Principles of International Environmental Law (2nd ed., Cambridge, 2003).

International environmental law | Wex | US Law | LII ...

International Environmental Law Introduction. International environmental law is a body of international law concerned with protecting the environment, primarily through bilateral and multilateral international agreements. International environmental law developed as a subset of international law in the mid-twentieth century. Although conservation movements developed in many nations in the nineteenth century, these movements typically only addressed environmental concerns within a single nation.

International Environmental Law | Encyclopedia.com

The International Council of Environmental Law (ICEL) is the world's first, and oldest, organization of eminent jurists dedicated to the field of environmental law. ICEL has, for five decades, played a unique role in the creation of international environmental law and establishing the juridical foundation for many aspects of sustainable development.

ICEL - ICEL

The World Commission on Environmental Law (WCEL) advances environmental law around the globe by providing specialized knowledge and assistance to strengthen the legal foundations of the conservation of nature and sustainable development through the conceptual advancement of environmental principles, norms, and laws, and by building the capacity of communities to benefit from the environmental rule of law.
