world of high-altitude mountaineering.”—The New York Times Ed Viesturs, one of the world's premier high-altitude mountaineers, explores the remarkable history of K2 and of those who have attempted to conquer it. At the same time, he probes the mountain's most memorable sagas in order to illustrate lessons about the fundamental questions mountaineering raises—questions of risk, ambition, loyalty to one's teammates, self-sacrifice, and the price of glory. Viesturs knows the mountain firsthand. He and renowned alpinist Scott Fischer climbed it in 1992 and got caught in an avalanche that sent them sliding to almost certain death before Ed managed to get into a self-arrest position with his ice ax and stop both his fall and Scott's. Focusing on seven of the mountain's most dramatic campaigns, from his own troubled ascent to the 2008 tragedy, Viesturs crafts an edge-of-your-seat narrative that climbers and armchair travelers alike will find unforgettably compelling. With photographs from Viesturs's personal collection and from historical sources, this is the definitive account of the world's ultimate mountain, and of the lessons that can be gleaned from struggling toward its elusive summit.

On August 1, 2008, no fewer than eight international teams of mountain climbers—some experienced, others less prepared—ascended K2, the world's second-highest mountain, with

## Download Free K2 Life And Death On The Worlds Most Dangerous Mountain

the last group reaching the summit at 8 p.m. Then disaster struck. A huge ice chunk came loose above a deadly three-hundred-foot avalanche-prone gully, destroying the fixed guide ropes. More than a dozen climbers—many without oxygen and some with no headlamps—faced the nearly impossible task of descending in the blackness with no guideline and no protection. Over the course of the chaotic night, some would miraculously make it back. Others would not. In this riveting work of narrative nonfiction, journalist Graham Bowley re-creates one of the most dramatic tales of death and survival in mountaineering history.

Though not as tall as Everest, the "Savage Mountain" is far more dangerous. Located on the border of China and Pakistan, K2 has some of the harshest climbing conditions in the world. Ninety women have scaled Everest but of the six women who reached the summit of K2, three lost their lives on the way back down the mountain and two have since died on other climbs. In *Savage Summit*, Jennifer Jordan shares the tragic, compelling, inspiring, and extraordinary true stories of a handful of courageous women -- mothers and daughters, wives and lovers, poets and engineers -- who defeated this formidable mountain yet ultimately perished in pursuit of their dreams.

The deadly history of the world's most-

# Download Free K2 Life And Death On The Worlds Most Dangerous Mountain

dangerous mountain illuminates the many lessons both climbers and non-climbers alike can glean from K2, the aptly named Savage Mountain.

On 1 August 2008 Ger McDonnell became the first Irish person to summit K2. The descent of his expedition became one of the worst disasters in mountaineering history. An extensively researched story of bravery and heroism in the face of terrible odds.

"A fascinating tale...Readers who are into high-altitude adventure stories won't be disappointed." –Associated Press In 1939 the Savage Mountain claimed its first victim. Born into vast wealth yet uneasy with a life of leisure, Dudley Wolfe, of Boston and Rockport, Maine, set out to become the first man to climb K2, the world's second-highest mountain and, in the opinion of mountaineers, an even more formidable challenge than Mt. Everest. Although close to middle age and inexperienced at high altitude, Wolfe, with the team leader, made it higher than any other members of the expedition, but he couldn't get back down. Suffering from altitude sickness and severe dehydration, he was abandoned at nearly 25,000 feet; it would be another sixty-three years before the author discovered his remains.

The account of one of the deadliest and most mysterious tragedies in mountaineering

## Download Free K2 Life And Death On The Worlds Most Dangerous Mountain

history-the 2008 K2 disaster. One Mountain Thousand Summits reveals the true story of the K2 tragedy that claimed the lives of eleven men. Based on his numerous trips to Nepal and in-depth interviews he conducted with the survivors, the families of the lost climbers, and the Sherpa guides whose heroic efforts saved the lives of at least four climbers, Freddie Wilkinson's narrative uncovers what actually occurred on the mountain, while delivering a criticism of the mainstream press's incomplete coverage of the event, and an insightful look into the lives of the six Sherpas who were involved.

Presents the stories of the sharps who have acted as expert consultants to Westerners climbing the Himalayas, focusing in particular on Chhiring Dorje Sherpa and Pasang Lama, who survived when 11 other climbers died on K2 in August 2008. 15,000 first printing.

Outlines the dramatic 2006 survival story of a famed Australian mountain climber who was pronounced dead and abandoned by Sherpas during a summit of Mount Everest only to be discovered alive the next day, in an account featured in the Emmy-nominated Dateline NBC documentary, "Miracle on Mount Everest."

A deeply moving story of the beauty and brutality of life, and death, on the world's most unpredictable and perilous mountain.

## Download Free K2 Life And Death On The Worlds Most Dangerous Mountain

Sitting just lower than Everest at 8,611 meeres above sea level on the China–Pakistan border, the Savage Mountain claims the lives of even the most experienced climbers. Alongside severe altitude, the weather is notoriously volatile and the climb relentlessly steep. A staggering one in four attempts result in death on the mountain. In *One Man's Climb*, Adrian Hayes details an intensely personal account of his attempts to climb K2 – first in 2013 and again in 2014. Absorbing and self-reflective, his journey is as much a story of climbing a mountain as it is a testament to the human spirit's ability to endure.
