Eighteen countries. Five shock absorbers. Two bikers. One amazing adventure... After their fantastic trip round the world in 2004, fellow actors and bike fanatics Ewan McGregor and Charley Boorman couldn't shake the travel bug. Inspired by their UNICEF visits to Africa, they knew they had to go back and experience this extraordinary continent in more depth. And so they set off on their 15,000-mile journey with two new BMWs loaded up for the trip. Their route took them from John O'Groats at the northernmost tip of Scotland to Cape Agulhas on the southernmost tip of South Africa. Along the way they rode some of the toughest terrain in the world -- and met some of the friendliest people. They rode their bikes right up to the pyramids in Egypt and visited Luke Skywalker's house in Tunisia. They met people

who had triumphed over terrifying experiences -- former childhood soldiers in Uganda and children living amidst the minefields of Ethiopia. They had a close encounter with a family of gorillas in Rwanda and were nearly trampled by a herd of elephants in Botswana. Riding through spectacular scenery, often in extreme temperatures, Ewan and Charley faced their hardest challenges yet. With their trademark humor and honesty they tell their story -- the drama, the dangers and sheer exhilaration of riding together again, through a continent filled with magic and wonder.

Excerpt from The Book of Woodcraft and Indian Lore For over twenty-five years I have been giving the talks and demonstrations that are gathered together in this book.

Many Of them have appeared in magazines or in the birch-bark Roll that has come out annually for ten years. But this is the first time in which a comprehensive collection has been made Of the activities, customs, laws, and amusements that have been developed in my camps. Some of the related subjects I have treated at too great length for enclosure in one book. Of this class are the Life Histories Of Northern Animals, Animal Stories, Sign Language and Forestry, which appear as separate works. All are merely parts of a scheme that I have always considered my life work, namely, the development or revival of Woodcraft as a school for Manhood. By Woodcraft I mean outdoor life in its broadest sense and the plan has ever been with me since boyhood. Woodcraft is the first of all the sciences. It was Woodcraft

that made man out of brutish material, and Woodcraft in its highest form may save him from decay. As the model for outdoor life in this country I took the Indian, and have thus been obliged to defend him against the calumnies of those who coveted his possessions. In giving these few historical extracts to show the Indian character, it must be remembered that I could give hundreds, and that practically all the travelers who saw with their own eyes are of one mind in the matter. Commissioner Robert G. Valentine, of the Indian Bureau, the first Indian Commissioner we have ever had who knew and sympathized with the Indians, writes after reading my manuscript.
