Known as one of the most aggressive Confederate officers in the Western Theater, Brigadier General Alfred Jefferson Vaughan Jr. is legendary for having had eight horses shot out from under him in battle—more than any other infantry commander, Union or Confederate. Yet despite the exceptional bravery demonstrated by his dubious feat, Vaughan remains a largely overlooked Civil War leader. In Confederate Combat Commander, Lawrence K. Peterson explores the life of this unheralded yet important rebel officer before, during, and after his military service. A graduate of Virginia Military Institute, Vaughan initially commanded the Thirteenth Tennessee Infantry Regiment, and later Vaughan’s Brigade. He served in the hard-fought battles of the western area of operations in such key confrontations as Shiloh, Perryville, Stones River, Chickamauga, Chattanooga, and the Atlanta Campaign. Tracing Vaughan’s progress through the war and describing his promotion to general after his commanding officer was mortally wounded, Peterson describes the rise and development of an exemplary military career, and a devoted fighting leader. Although Vaughan was beloved by his troops and roundly praised at the time—in fact, negative criticism of his orders, battlefield decisions, or personality cannot be found in official records, newspaper articles, or the diaries of his men—Vaughan nevertheless served in the much-maligned Army of Tennessee. This book thus assesses what responsibility—if any—Vaughan bore for Confederate failures in the West. While biographies of top-ranking Civil War generals are common, the stories of lower-level senior officers such as Vaughan are seldom told. This volume provides rare insight into the regimental and brigade-level activities of Civil War commanders and their units, drawing on a rich array of privately held family histories, including two written by the general himself. Lawrence K. Peterson, a retired airline pilot, worked as a National Park Service ranger and USAF officer. He is the great-great grandson of Brigadier General Alfred Jefferson Vaughan Jr.

This special issue of Visual Cognition collects some 30 articles on Visual Search and Attention by leading experts from a variety of disciplines, including experimental psychology, neuropsychology, neurophysiology and computational modelling. The articles are updated versions of papers presented at the 2003 Munich Visual Search Symposium. The symposium's goal, carried forward in this collection, was to foster an interdisciplinary dialogue, in order to identify important shared issues and consider ways of how these can be resolved using convergent methodologies. Reflecting the symposium discussions, the Special Issue is divided into four thematic sections: preattentive processing and role of memory in visual search, brain mechanisms and computational modelling of visual search.

An irreverent, yet powerful exploration of race relations by the New York Times–bestselling author of The Chris Farley Show Frank, funny, and incisive, Some of My Best Friends Are Black offers a profoundly honest portrait of race in America. In a book that is part reportage, part history, part social commentary, Tanner Colby explores why the civil rights movement ultimately produced such little true integration in schools, neighborhoods, offices, and churches—the very places where social change needed to unfold. Weaving together the personal, intimate stories of everyday people—black and white—Colby reveals the strange, sordid history of what was supposed to be the end of Jim Crow, but turned out to be more of the same with no name. He shows us how far we have come in our journey to leave mistrust and anger behind—and how far all of us have left to go.

This widely adopted text explores key theories and models that frame reading instruction and research. Readers learn why theory matters in designing and implementing high-quality instruction and research; how to critically evaluate the assumptions and beliefs that guide their own work; and what can be gained by looking at reading through multiple theoretical lenses. For each theoretical model, classroom applications are brought to life with engaging vignettes and teacher reflections. Research applications are discussed and illustrated with descriptions of exemplary studies. New to This Edition *Current developments in theory, research, and instructional practices. *Useful pedagogical features in every chapter: framing questions, discussion ideas, and learning activities. *Classroom applications give increased attention to English language learners and technology integration. *Coverage of additional theories (Third Space Theory) and theorists (Bakhtin and Bourdieu).

No existe tradición más mexicana que la de los corridos, las heróicas baladas que celebran a los de abajo -- a los fugitivos y pistoleros. Al igual que las baladas de Robin Hood o de Jesse James, los corridos han sido para los pobres una manera de enaltecer a sus héroes. Los corridos siguen, pero sus héroes han cambiado: ahora son célebres los narcotraficantes. Elijah Wald cuenta la fascinante historia de esta nueva versión de una vieja tradición: la de los narcocorridos. Traza el desarrollo de los corridos desde sus orígenes en el indómito Oeste hasta su más reciente encarnación en la costa del mar Pacífico, la cuna del tráfico de drogas mexicano. Sigue su expansión hasta Los Angeles, donde los corridos son la voz de la juventud actual de los barrios latinos, y hasta los estados de Michoacán y Guerrero, donde canciones sobre narcopistoleros coinciden con baladas sobre los guerrilleros en las montañas. Wald viaja a la Ciudad de México para encontrarse con el juglar viajero de la rebelión zapatista, y continúa hasta Cuernavaca para encontrarse con Teodoro Bello, el genio iletrado que se ha convertido en el compositor de mayor éxito en la historia de México. Discursivo, vívido y perspicaz, Narcocorridos descubre una tradición musical llena de vitalidad mostrando de manera fascinante el lugar que ocupa el narcotráfico en la cultura mexicana.
