~~Simplicity® UV Water Purification System - SIMSV000W~~
For applications sensitive to organic contaminants, a UV version of the Simplicity ® system is also available. It incorporates a dual wavelength UV lamp for photooxidation of organic compounds. A final purification step at the point-of-dispense removes specific contaminants critical for your experiments.

~~Simplicity® Water Purification System - Other Products~~
Simplicity is a water purification system fed through an integrated vented storage reservoir. The system provides the final "polish" to remove any remaining contaminants in water pretreated by reverse osmosis, electrodeionization (Elix), distillation or deionization. The Simplicity system is designed to produce water of Type 1 quality.
