Monitoring and Evaluation of Production Processes: An ...

This book presents topics on monitoring and evaluation of production processes in the automotive industry. Regulation of production processes is also described in details. The text deals with the implementation and evaluation of these processes during the mass production of components useful in the automotive industry.

Monitoring and Evaluation of Production Processes ...

Monitoring and Evaluation (M&E) is used to assess the performance of projects, institutions and programmes set up by governments, international organisations and NGOs. Its goal is to improve current and future management of outputs, outcomes and impact. Monitoring is a continuous assessment of programmes based on early detailed information on the progress or delay of the ongoing assessed activities.

Monitoring and Evaluation of Production Processes: An ...

Monitoring is checking progress against plans. The data acquired through monitoring is used for evaluation. Evaluation is assessing, as systematically and objectively as possible, a completed project or programme (or a phase of an ongoing project or programme that has been completed). Evaluations appraise data and information that inform strategic decisions, thus improving the project or
