The Directory of Corporate Counsel, Fall 2020 Edition remains the only comprehensive source for information on the corporate law departments and practitioners of the companies of the United States and Canada. Profiling over 30,000 attorneys and more than 12,000 companies, it supplies complete, uniform listings compiled through a major research effort, including information on company organization, department structure and hierarchy, and the background and specialties of the attorneys. This newly revised two volume edition is easier to use than ever before and includes five quick-search indexes to simplify your search: Corporations and Organizations Index Geographic Index Attorney Index Law School Alumni Index Nonprofit Organizations Index Former 2016 -2017 Edition: ISBN 9781454871798 Former 2015 - 2016 Edition: ISBN 9781454856535 Former 2014 - 2015 Edition: ISBN 9781454843474 Former 2013 -2014 Edition: ISBN #9781454825913 Former 2012 -2013 Edition: ISBN #9781454809593 Former 2017-2018 Edition: ISBN #9781454884460 Former 2018 Mid-Year Edition: ISBN #9781454889250 Former 2019 Edition ISBN #9781543803488 Former 2020 Edition: ISBN #9781543810295c

Ethics and Law for School Psychologists is the single best source of authoritative information on the ethical and legal issues school psychologists face every day. Designed specifically to meet the unique needs of psychologists in school settings, this book includes the most up-to-date standards and requirements while providing an introduction to ethical codes, ethical decision making, and the legal underpinnings that protect the rights of students and their parents. This new seventh edition has been extensively updated with the latest research and changes to the law, with an increased focus on ethical-legal considerations associated with the use of digital technologies. Coverage includes new case law on privacy rights, electronic record keeping, the 2014 Standards for Educational and Psychological Testing, digital assessment platforms, the latest interpretations of the Individuals with Disabilities Education Act, and more. Ethics texts for counseling and psychology are plentiful, and often excellent—but this book is the only reference that speaks directly to the concerns and issues specific to psychologists in school settings. Case vignettes, end-of-chapter questions, and discussion topics facilitate deeper insight and learning, while updated instructor's resources bring this key reference right into the classroom. Keeping up with the latest research and legal issues is a familiar part of a psychologist's duties, but a practice centered on children in an educational setting makes it both critical and more complex. Ethics and Law for School Psychologists provides a central resource for staying up to date and delivering ethically and legally sound services within a school setting.

In 1955, Clyde Kennard, a decorated army veteran, was forced to cut short the final year of his studies at the University of Chicago and return home to Mississippi due to family circumstances, where Kennard made the decision to complete his education. Yet still on the eve of the civil rights movement in America, Kennard's decision would be one of the first serious attempts to integrate any public school at the college level in the state. The Life and Times of Clyde Kennard tells the true story of Kennard's efforts to complete his further education at Mississippi Southern College (now the University of Southern Mississippi) against the backdrop of the institutionalized social order of the times and the prevailing winds of change attempting to blow that social order away. As Meredith's admission to "Ole Miss" became more widely known at the time, Kennard became the forgotten man. Author Derek R. King shares his extensive research into Kennard's life, and touches on key events that shaped those times.

Legal Issues in Special Education provides teachers and school administrators with a clearly written, well-organized, and understandable guide from the perspective of the practitioner without formal legal training. Even though over 50 percent of students with disabilities are now educated in general education classes, most teachers are not required to complete coursework in special education law and can unwittingly expose themselves and their schools to liability for violating the rights of students with disabilities. This practitioner's guide explicitly addresses the major issues and legal complexities educators inevitably face when dealing with special education legal and policy issues. Using case-based learning to synthesize important legal concepts and principles from leading special education legal cases, this text guides educators, administrators, and parents alike toward a thorough understanding of, and the ability to navigate, many of the current and pressing legal concerns in special education.

The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. Known for its clear and engaging writing, the bestselling Race, Ethnicity, Gender, and Class has been thoroughly updated to be fresher, more relevant, and more accessible to undergraduates. The Eighth Edition retains the same use of sociological theory to tell the story of race and other socially constructed inequalities in the U.S. and for examining the variety of experiences within each minority group, particularly differences between those of men and women. This edition also puts greater emphasis on intersectionality, gender, and sexual orientation that will offer students a deeper understanding of diversity. New to this Edition New co-author Andi Stepnick adds fresh perspectives from her teaching and research on race, gender, social movements, and popular culture. The text has been thoroughly updated from hundreds of new sources to reflect the latest research, current events, and changes in U.S. society. 80 new and updated graphs, tables, maps, and graphics draw on a wide range of sources, including the U.S. Census, Gallup, and Pew. 35 new internet activities provide opportunities for students to apply concepts by exploring oral history archives, art exhibits, video clips, and other online sites.

Because equity and instruction are inextricably bound Why are equity visits such a critical first step to increasing opportunity and access for our under-served students? Because they take instructional rounds to a new level, providing a powerful lens for investigating the intersections of equity and instruction. After all, how can we possibly deliver equitable learning experiences, opportunities, and outcomes for our students, without first pinpointing problems of practice? That's where Equity Visits will prove absolutely indispensable to district and school administrators. It details how to combine a strong focus on instruction with explicit, intentional efforts to address systemic inequities. Inside you'll find A range of data collection activities and tools to target central issues of equity in your school Clear guidelines on how to investigate the ways instructional practices, structures, and beliefs lead to inequitable educational experiences—and how these are often masked in the day-to-day life of schools and districts A frank discussion of how to make race and racism an explicit part of investigating and addressing educational inequities Voices of school and district leaders who have taken crucial first steps to become "equity warriors" Recommendations on how to develop policies, initiatives, and practices to confront those inequities Few dispute that instructional improvement must be a central focus of educational leadership, but for too long achieving educational equity has been absent from the conversation. Here is your opportunity to ensure equity occupy a central spot in data collection and analysis, and be explicitly discussed at all levels of your school or district organization. In short, essential reading and doing for all administrators!

Critical Pedagogies in Physical Education, Physical Activity and Health explores critical pedagogy – and critical work around the body, health and physical activity – within physical education. By examining the complex relationships between policies and practice, and how these are experienced by young people, it elucidates the need for critical pedagogy in contemporary times. With contributions from leading international experts in health and physical education, and underpinned by a critical, socio-cultural approach, the book examines how health and physical education are situated across various international contexts and the influence of policy and curriculum. It explores how health is constructed by students and teachers within these contexts as well as how wider spaces and places beyond formal schooling influence learning around the body, health and physical activity. Finally, it considers what progressive pedagogies might 'look like' within health and physical education. Chapters utilise empirical work within the field to explore various topics of relevance to critical pedagogy, drawing on theoretical insights while providing practical applications and concluding with reflection points to encourage readers to consider the relevance for their own contexts. Designed to support pedagogical study in a range of contexts, this book will be of particular interest to undergraduate and postgraduate students, teachers and researchers with an interest in physical education, physical activity and health and the role they play in young people's lives.

School Counseling Practicum and Internship: 30 Essential Lessons combines crucial counselor knowledge with the experience of experts in the field into one practical guide for addressing the real world of school counseling. Drawing on more than a decade of teaching, author Helen S. Hamlet, PhD presents a collection of lessons and techniques that includes forms, websites, activities, and current information focusing on a range of challenging issues. This unique text is a resource that practicum and internship students, counselor educators, and practicing school counselors will keep and refer to for years to come.
