Newborn Medicine And Society European

For the best start in life. The European Foundation for the Care of Newborn Infants (EFCNI) is the first pan-European organisation and network to represent the interests of preterm and newborn infants and their families. We bring together parents, healthcare experts from different disciplines, and scientists with the common goal of improving long-term health of preterm and newborn children.

The European Commission has granted a new sickle cell drug authorisation for use in Europe to prevent recurrent sickle cell crises (vaso-occlusive crisis – VOCs). Although this doesn't currently extend to the UK, it is a great step forward in widening the range of options available for sickle cell patients, which could become available in the UK in the future.
