BSc(Hons) Computer Science Computer science & software development is the main content of this course, providing the students with computing skills and knowledge for their future career in the IT industry. Awarded by the University of Westminster UK Recognized by the University Grants Commission of Sri Lanka Accredited by the BCS, UK Next Intake [¶]

BSc(Hons) Computer Science - IIT Campus

Object-oriented programming (OOP) is a computer programming model that organizes software design around data, or objects, rather than functions and logic. An object can be defined as a data field that has unique attributes and behavior. OOP focuses on the objects that developers want to manipulate rather than the logic required to manipulate them.
