Oracle Apex Installation (Oracle Apex Tutorial-1) - YouTube

As with any software development life cycle, Oracle strongly recommends that you have different environments for development, testing/QA, and production. For testing and production instances, Oracle Application Express supports the ability to install just a runtime version of Oracle Application Express. This runtime environment minimizes the installed footprint and privileges and improves application security since in a runtime instance developers cannot inadvertently

About the Oracle Application Express Runtime Environment

When you install Oracle Database 12c Multitenant Architecture, Oracle Application Express is installed into the multitenant container database by default. A single multitenant container database can have up to 252 pluggable databases (PDBs). The container database root (CDB\$ROOT) includes an APEX_040200 schema which holds all of the common objects required for Application Express, including the Application Express engine packages, processes, functions and views.
