"As with cooking all bivalves, it's important to remove them from the heat as soon as they open," says Muir. "Otherwise, they quickly shrivel and become chewy when overcooked." Pippis are fished year round in South Australia, but it's the larger New South Wales pipi that attracts most of the attention when the season runs, from early June to late October (or November in a bumper season).

Beyond Babar: The European Tradition in Children's Literature examines in depth eleven of the most celebrated European children's novels in substantial, critical essays written by well-known international scholars. This approach provides a comprehensive discussion of the selected works from a variety of theoretical perspectives. Each essay offers a critical introduction to the text that can serve as a point of departure for literary scholars, professors of children's literature, primary and secondary school teachers, and librarians who are interested in texts that cross languages and cultures.

Two friends, Jens and Gary, both Dutch, travel in 1992 to California for a sports training camp and are involved in a devastating plane crash. They barely survive; out of the twenty-two people on board sixteen are killed, including two of their Dutch team mates. A young Dutch woman, who unknowingly belongs to a subculture guided by underground powers, is indirectly involved in the accident. Back

home she tries to find the Dutch survivors. Jens and Gary experience the most difficult period of their life; having to deal with the grief of losing their friends and recovering from severe injuries. In the period after the accident, their lives start changing. They are caught up in events they never thought possible. Jens and Gary meet occasionally. In intense discussions they discover that not all is what it seems. Twelve years after the accident, several striking signs draw Jens attention. Too many to be just coincidental, he decides. Is someone trying to tell me something? Does Gary have a point after all?, he wonders. In 2012, a remembrance day is organized at the crash site. Back in California Jens meets a presumed lost friend. This event explains to him why things have happened, and why certain people have played a part in his life. He is shocked by what he hears about mysterious tribes and clans who guide and influence us earthly inhabitants. It all unfolds in a thrilling vision on the origin of mankind, the society and our greatest threat. *BY SHEER ACCIDENT* is based on many true events experienced by the writers themselves.

In a hilarious tale reminiscent of T. H. White, a lost boy finds himself an unlikely apprentice to the very old, vaguely evil, mostly just grumpy Wizard Smallbone. When twelve-year-old Nick runs away from his uncle's in the middle of a blizzard, he stumbles onto a very opinionated bookstore. He also meets its guardian, the self-proclaimed Evil Wizard Smallbone, who calls Nick his apprentice and won't let him leave, but won't teach him magic, either. It's a good thing the bookstore takes Nick's magical education in hand, because Smallbone's nemesis—the Evil Wizard Fidelou—and his pack of shape-shifting bikers are howling at the borders. Smallbone might call himself evil, but compared to Fidelou, he's practically a puppy. And he can't handle Fidelou alone. Wildly funny and cozily heartfelt, Delia Sherman's latest is an eccentric fantasy adventure featuring dueling wizards, enchanted animals, and one stray boy with a surprising knack for magic.
