Song of Lawino and Song of Ocol are among the most successful African literary works. Song of Lawino is an African womans lamentation over the cultural death of her western educated husband - Ocol. In Song of Ocol the husband tries to justify his cultural apostasy. These songs were translated from Acholi by the author. They evince a fascinating flavour of the African rhythmical idiom.

Pandemonium is an epic mock-heroic poem, written in response to the pandemic with all the anger and wit that Armando Iannucci brings to his vision of contemporary events. This timely book provides a balanced and deeply knowledgeable introduction to Cuba since Christopher Columbus's first arrival in 1492. With decades of experience studying and reporting on the island, Philip Brenner and Peter Eisner provide an incisive overview for all readers seeking to go beyond stereotypes in their exploration of Cuba's politics, economy, and culture. As Cuba and the United States open their doors to each other, Cuba Libre gives travelers, policy makers, businesspeople, students, and those with an interest in world affairs an opportunity to understand Cuba from a Cuban perspective; to appreciate how Cubans' quest for independence and sovereignty animates their spirit and shapes their worldview and even their identity. In a world ever more closely linked, Cuba Libre provides a compelling model for US citizens and policy makers to empathize with viewpoints far from their own experiences.

This book explores the concept of playmaking and activism through three research projects in which culturally and linguistically diverse high school students and young adults created original theatre around the issues that inform their lives and constrain their futures. Each study discussed by the author is considered through the lens of one or more best practices. The outcomes of the playmaking experiences, communicated through detailed ethnographic data and the voices of student participants, make a strong case for using what we already know about teaching to positively impact gross inequities of outcome for culturally and linguistically diverse students. This study will be of great interest to students, scholars, and practitioners in Applied Theatre, Theatre Education, and Art Therapy.
