NOVEL FEATURES OF THE TEXT FOLLOWS: The following new topics added by the CBSE for the session 2020-21 onward is available in a very interesting manner: UNIT-1 History of Commerce UNIT-IV Types of Digital Payments UNIT-VIII Entrepreneurship Development (ED) Startup India Intellectual Property Rights (IPRs) UNIT-IX Goods and Service Tax (GST) Running Glossary is given headed as TOOL KIT. A large number of PICTURES are given to make the text interesting. At the end of each unit INSTANT LEARNING MAPS are given for QUICK REVISION. At the end of each unit STUDY ASSIGNMENT is given which contains a large number of : Remembering-Based, Understanding-Based, Analyzing , Evaluating and Creating-Based questions. OBJECTIVES TYPE QUESTIONS / MCQs are available. TWO SAMPLE PROJECTS are available which are very practical and presented in a very interesting manner. LIVE PRESENTATION of one of the projects namely "STUDENTS' DUMMY BANK" is available at - <http://youtu.be/FnToqJaiZLY>. Sufficient number of CASE STUDIES are available. Also find Practice Papers at the end of the book.

At the beginning of the book (before Unit-1) the overview of the various concepts of management discussed in the book is given through dialogue box. This view has further been enlarged in Unit-3 also. It would be helpful to enhance the understanding of the subject. Throughout the book, ,running glossary is given headed as tool kit. The brief summary of the important Concepts and Key Terms is presented here. It would enable the readers to reinforce their learning. In the book, the case studies have also been included to enhance the practical knowledge of the subject. instant learning maps are given with a view to facilitating quick revision and I hope that the students will be really benefitted as it facilitates the work of revising the subject particularly during examination days. Match the Column and Comprehension Type Questions are given headed as appendix. At the end of each part query session is given to raise queries from the readers' side. Some possible queries have already been answered on the spot. Every aspect of the syllabus has been studied in detail so that the entire material relevant to the requirement of the syllabus becomes available in a single book. Every difficult fact has been presented with the help of examples and diagrams so that the subject can be easily and adequately comprehended. A list of questions that are important from the examination point of view has been given at end of each Unit. Every possible effort has been made to present the subject-matter in a simple, clear and interesting manner. Special efforts have been made to make the book error-free.

The book has been designed topic and subtopic-wise, keeping the students' needs in mind. The current edition has certain unique features: This book is strictly as per the latest CBSE syllabus and covers complete matter as per the NCERT book. After every topic, objective type questions and case studies are given based on the latest CBSE Sample Paper (2020). (Hints of their answers are given at the end of each chapter.) At the end of each chapter, 40 objective type questions (20 MCQs + 10 Fill in the blanks + 10 True/False) are given along with answers at the end. Keywords of each topic are given at the end of each topic, to help students to solve case studies. A flow chart of each chapter is given at the end to recap the topics covered in that chapter. Quick revision is given to revise all the topics in short time. At the end of each chapter, questions asked in last 7 years' board exam are given, so that the student may get an idea of what types of questions are expected from this chapter. (Hints of answers of these questions are also given). Case Studies are framed by using words strictly from the NCERT. A solved sample paper of CBSE 2020 is also given. Guidelines for project are also given. A sample project on Marketing Management is also given. The Subject Matter is presented in simple language, in points, and along with diagrams, so that the student may find it easy to understand.

NOVEL FEATURES OF THE TEXT FOLLOWS: Objective type questions and case studies after important topics inside the chapter are given . Case Studies are given at the end of each chapter. Review exercise of NCERTis given with solutions. Headings of every topic is strictly same as NCERT. Flow chart of full chapter is given at the end of the chapter. Summary of full chapter point wise as quick revision is given after every chapter.

Infectious diseases are the leading cause of death globally, particularly among children and young adults. The spread of new pathogens and the threat of antimicrobial resistance pose particular challenges in combating these diseases. Major Infectious Diseases identifies feasible, cost-effective packages of interventions and strategies across delivery platforms to prevent and treat HIV/AIDS, other sexually transmitted infections, tuberculosis, malaria, adult febrile illness, viral hepatitis, and neglected tropical diseases. The volume emphasizes the need to effectively address emerging antimicrobial resistance, strengthen health systems, and increase access to care. The attainable goals are to reduce incidence, develop innovative approaches, and optimize existing tools in resource-constrained settings.

This volume aims to outline the fundamental principles behind leadership, innovation and entrepreneurship and show how the interrelations between them promote business and trade practices in the global economy. Derived from the 2016 International Conference on Leadership, Innovation, and Entrepreneurship (ICLIE), this volume showcases original papers presenting current research, discoveries and innovations across disciplines such as business, social sciences, engineering, health sciences and medicine. The pace of globalization is increasing at a rapid rate and is primarily driven by increasing volume of trade, accelerating pace of competition among nations, freer flows of capital and increased level of cooperation among trading partners. Leadership, innovation, and entrepreneurship are key driving forces in enhancing this phenomenon and are among the major catalysts for contemporary businesses trading in the global economy. This conference and the enclosed papers provides a platform in which to disseminate and exchange ideas to promote a better understanding of current issues and solutions to challenges in the globalized economy in relation to the fields of entrepreneurship, business and economics, technology management, and Islamic finance and management. Thus, the theories, research, innovations, methods and practices presented in this book will be of use to researchers, practitioners, student and policy makers across the globe.

As the generic pharmaceutical industry continues to grow and thrive, so does the need to conduct efficient and successful bioequivalence studies. In recent years, there have been significant changes to the statistical models for evaluating bioequivalence, and advances in the analytical technology used to detect drug and metabolite levels have made

This book includes original unpublished contributions presented at the International Conference on Data Analytics and Management (ICDAM 2020), held at Jan Wyzkowski University, Poland, during June 2020. The book covers the topics in data analytics, data management, big data, computational intelligence, and communication networks. The book presents innovative work by leading academics, researchers, and experts from industry which is useful for young researchers and students.
