This model is frequently referred to as "Touch Control" because that is the only labeling to be found aside from the Royal logo (the decals, alas, are almost completely worn off of mine). Many collectors refer to it as the Model 0 because the serial number carries an "0" prefix. Officially, Royal called this the Portable Standard.

Examine the typewriter for the Royal name, which appeared on every Royal typewriter. The name is located in several places, including just above the keys, at the upper back of the machine above the carriage return and on the machine sides. The " R" in the Royal name has a long flourish on the right side that wraps underneath the word and stops under the first leg of the "A." In later models ...
