This special issue features papers that offer deeply felt, valuable perspectives on diverse aspects of theory construction in social-personality psychology. The goal is to furnish a basis for starting a discussion about the considerable challenges of theorizing, the ways of meeting those challenges, and the great rewards that successful theorizing offers to the discipline as a whole.

In this volume, first published in 1983, the editors aim to achieve an understanding of performance from a variety of theoretical perspectives. The papers in this volume will not only spur further research, but will also provide an opportunity for some careful considerations of how performance is measured in various applied settings. The book is divided into four major areas; intraindividual issues, interdividual/organizational dynamics, methodology, and philosophies. This title will be of interest to students of business studies, psychology and human resource management.

Personality Theories: Critical Perspectives is the groundbreaking, final text written by Albert Ellis, long considered the founder of cognitive behavioral therapies. The book provides students with supporting and contradictory evidence for the development of personality theories through time. Without condemning the founding theorists who came before him, Ellis builds on more than a century of psychological research to re-examine the theories of Freud, Jung, and Adler while taking an equally critical look at modern, research-based theories, including his own.

Filled with updated research and findings, Schultz and Schultz's THEORIES OF PERSONALITY, 11th Edition gives students a clear and cogent introduction to this dynamic field. Organized by theory, this popular text discusses major theorists who represent psychoanalytic, neopsychanalytic, lifespan, trait, humanistic, cognitive, behavioral, and social-learning approaches, while demonstrating the influence of events in theorists' personal and professional lives on the development of their theories. The text reviews current work on selected facets of personality including locus of control, sensation seeking, learned helplessness, optimism-pessimism, and positive psychology. The authors also explore the ways in which race, gender, and cultural issues play a part in the study of personality and in personality assessment. The final chapter, Personality in Perspective, integrates topics explored in previous chapters and suggests conclusions that can be drawn from the many theorists' work. Thoroughly updated to include the latest research available, THEORIES OF PERSONALITY, 10E takes a unique theory by theory approach that carefully guides students through major theories on their way to a comprehensive understanding of personality. Richard Ryckman's student-friendly writing style offers a straightforward presentation of major theories, helping readers more easily distinguish between them. The text begins by providing a framework that defines personality and emphasizes the science of personality--including the interrelation between research and theory. Next it introduces each major theoretical position with an objective overview of the theorist's basic concepts and principles. It concludes by noting the ways in which the different theories stimulate additional research efforts and by presenting five current research trends resulting from the work of these earlier theorists. The result is a text that merges the best of classic and contemporary research to equip students with a solid working knowledge of personality.
