Concise discussions of the lives and principal works of prominent science-fiction authors, written by subject experts.

One of the 20th century’s enduring works, One Hundred Years of Solitude is a widely beloved and acclaimed novel known throughout the world, and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. It is a rich and brilliant chronicle of life and death, and the tragicomedy of humankind. In the noble, ridiculous, beautiful, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin America. Love and lust, war and revolution, riches and poverty, youth and senility -- the variety of life, the endlessness of death, the search for peace and truth -- these universal themes dominate the novel. Whether he is describing an affair of passion or the voracity of capitalism and the corruption of government, Gabriel García Márquez always writes with the simplicity, ease, and purity that are the mark of a master. Alternately reverential and comical, One Hundred Years of Solitude weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an accounting of the history of the human race.

In the past, the examination of myth has traditionally been the study of the “Primitive” or the “Other.” More recently, myth has been increasingly employed in movies and in television productions. Nowhere is this more apparent than in the Star Trek television and movie franchise. This collection of essays on Star Trek brings together perspectives from scholars in fields including film, anthropology, history, American studies and biblical scholarship. Together the essays examine the symbolism, religious implications, heroic and gender archetypes, and lasting effects of the Star Trek “mythscape.”

Meet Lieutenant Flint: hard-edged and muscle-bound, radiating machismo—a bull of a soldier. In the opposite corner stands Captain Turner: with his pencil mustache and tailored shirts, he’s a Trick Soldier—smart, crisply-dressed, and always at attention. They’re fire and ice, oil and water. Ten years ago and a thousand miles away, they attended boot camp together. They didn’t get along then . . . and they don’t get along now. Reunited in the Haitian jungles, in the midst of a fierce rebel uprising, they confront the most dangerous enemy of all—each other. It’s time for heroes to rise and cowards to fall, and in the case of Lieutenant Flint and Captain Turner, bravery runs deep. When brute strength confronts military honor, the true measure of a man is not in his fists, but in his heart. Also includes the military adventures “He Walked to War,” in which Marine Sergeant E.Z. Go appears to take it easy, but always gets the job done ... even if it’s hard as nails or dangerous as hell—in the end E.Z. does it; and “Machine Gun 21,000,” the story of a soldier who loses a gun and faces a court martial, but finds a way to save the day.
